REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM AND BHUTAN

FOR THE YEAR 1890-91.

GENERAL NOTICE.

No change was made during the year in the system of registering the external land trade of Bengal with Nepal, Tibet, Sikkim and Bhutan. The trade with Nepal is registered at 32 important routes of traffic between Chumparun and Darjeeling; that with Tibet and Sikkim at 3 routes in the Darjeeling district; and that with Bhutan at 3 stations in the Julpigoree district. The result of the registration of the traffic during 1890-91 is given in this report.

In the matter of the valuation of articles, it may be mentioned that, previous to June 1889, value rates were based on the average wholesale price per maund reported from 12 selected districts. In accordance, however, with the instructions contained in the Revenue and Agricultural Department circulars noted in the margin, the old method of valuing opium and certain other articles for the purposes of the internal trade was changed, and one general list of value rates was adopted for both the internal and external trade reports of Bengal. In their letter No. 128, dated 13th January 1891, the Government of India, Department of Finance and Commerce, however, pointed out that the objects and procedure of registration of trans-frontier trade are not identical with those of the internal trade, and consequently any instructions issued by the Revenue and Agricultural Department in regard to the system of valuing articles of internal trade should not be held to apply to the external trade; and it was directed that the old method of valuing the trans-frontier trade be reverted to. Revised returns for each month from the date on which the system of valuation was changed have therefore been furnished to the Government of India as desired. The statistics for 1889-90 published in last report will not therefore correspond with those given in the present report.

No. $\frac{45 \text{ Stats.}}{25\text{-}26}$, dated 9th May 1888.
No. $\frac{72 \text{ Stats.}}{35\text{-}47}$, dated 1st August 1888.

2. The following statement compares the total value of the trade registered in Bengal during the past three years at all the stations :—

3. Compared with 1888-89 and 1889-90, the total trade of the past year showed a rise of 30·91 per cent. and 10·37 per cent. respectively. The imports showed an advance of 13·10 per cent. over the figures for 1889-90, and of 31·90 per cent. over those for 1888-89. Under exports, the increase during the past year was 7·06 per cent. and 29·66 per cent. on the returns of the preceding two years, respectively. The causes of the fluctuations are explained further on in the different sections of the trade dealt with in this report.

GENERAL NOTICE.

4. The figures given in paragraph 2, relating to the Nepal trade, include statistics of the trade between that State and other provinces which passed through, and was registered at, the registration stations in Bengal. The value of that trade during the past three years is given in the subjoined statement:—

YEARS.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1888-89	1,84,334	2,01,527
1889-90	98,175	1,86,615
1890-91	3,64,483	2,65,306

No trade is carried on between the other frontier States and other provinces through Bengal.

TRADE WITH NEPAL.

5. In the following statement the total value of the trade between Bengal and Nepal during the past year is compared with that of the two previous years:—

Trade between Bengal and Nepal.

YEARS.	Imports from Nepal.	Exports to Nepal.	Total.
	Rs.	Rs.	Rs.
1888-89	93,97,491	74,30,836	1,68,28,327
1889-90	1,09,24,413	89,01,832	1,98,26,245
1890-91	1,21,24,716	94,24,926	2,15,49,642

The foregoing figures show a steady increase year by year, both in imports and exports, the advance in the total value of the trade of the past year being 8·69 per cent. and 28·06 per cent., as compared with 1889-90 and 1888-89 respectively.

6. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures shown here, however, are exclusive of the registered trade with other provinces which passed through Bengal.

Looking to the imports, the greatest improvement is observable under food-grains (6,05,330 maunds), treasure (Rs. 4,12,901), and linseed, while mustard seed, cattle, tobacco, and ghee show a falling off. In the export trade the largest increase occurred in silk, manufactured (Rs. 71,798), and the largest decrease in European cotton piece-goods (Rs. 2,21,751).

7. *Cattle.*—The past year's trade under imports declined in comparison with the two previous years. There was a decrease of 14,912 cattle sent to Purneah.

8. *Cotton piece-goods.*—The exports of European piece-goods showed a falling off of 7·56 per cent. on the trade of the preceding year, but the past year's figures were 17·08 per cent. in excess of those for 1888-89. Last year the consignments through the Chumparun district were 11·84 per cent. below the previous year's figures, as will be seen from the subjoined statement:—

The total value of unsaleable goods brought back to British territory was very nearly the same as in 1889-90. The value of the exports of piece-goods of Indian manufacture was Rs. 80,790 and Rs. 25,010 below the trade of the two previous years

9. *Food-grains.*—The principal staples comprised under this head are named below, the trade in each of them being compared with that of the two previous years :—

The imports again showed a large increase of 30·25 per cent. as compared with 1889-90, and of 106·33 per cent. on the trade of 1888-89; the improvement in last year's trade was due to good harvests in Nepal. The following statement shows the total quantity of food-grains imported through each registering post, district by district, during the year :—

TRADE WITH NEPAL.

10. *Hides of Cattle.*—The improvement noticed in the imports in the two previous years was not maintained, the past year's figures being 20·15 per cent. below the quantity received in 1889-90 and 13·34 per cent. below that received in 1888-89. The undermentioned stations registered the supplies during the past three years:—

11. *Skins of sheep, goats, and other small animals.*—The import trade under this head continued active, the increase amounting to 38·03 per cent. as compared with the previous year, and to 168·99 per cent. as compared with 1888-89. The largest number (55,895 pieces) were registered at the Bairagnia frontier station in Mozufferpore.

12. *Brass and copper.*—The export trade in these metals showed a large decrease of 25·25 per cent. on the return of 1889-90, and of 14·52 per cent. on those of 1888-89. The falling off occurred chiefly in the quantity sent to Nepal from the Mozufferpore district, which exported only 286 maunds against 13,031 maunds in 1889-90.

13. *Iron.*—The export trade in this article is steadily declining, the total quantity showing a falling off of 25·91 per cent. on the figures for 1889-90, and of 31·34 per cent. on that for 1888-89.

14. *Ghee.*—Owing to the dullness of the Calcutta market, the imports under this head showed a large falling off, namely, 46·42 per cent. and 33·32 per cent. in comparison with 1889-90 and 1888-89 respectively. The stations at which the largest imports were registered during the year were as follows:—

19. *Tobacco.*—The export of tobacco to Nepal showed a slight increase over the figures of the two previous years, but the imports exhibited a considerable decrease of 56·54 per cent. on the returns of 1889-90, and of 53·10 per cent. on those of 1888-89. Of the importing districts, Purneah received 17,365 maunds, Durbhunga 2,815 maunds, and Mozufferpore 2,262 maunds,

while as regards the exports the largest supplies were despatched from Chumparun (23,237 maunds) and Mozufferpore (12,065 maunds).

20. *Timber.*—There was a further decrease in the imports of timber into British territory during the past year, the total quantity registered showing a falling off of 8·97 per cent. and 27·62 per cent. as compared with 1889-90 and 1888-89 respectively. The principal registering posts through which these supplies were imported from Nepal are—

21. *Wool, manufactured.*—There was a great recovery in the exports of woollen manufactures to Nepal during the past year as compared with 1889-90, and the figures were very nearly equal to the large traffic registered under this head in 1888-89. Calcutta, which was the chief source of supply, sent Rs. 32,718 worth of goods through the Chumparun district.

22. *Silver.*—The total value of silver imported from Nepal during the past year showed an advance of Rs. 4,12,901 in comparison with the previous year, but the figures were still below those of 1888-89 by Rs. 1,18,470. The fluctuations in the export trade showed an increase of Rs. 61,468 and Rs. 58,386 in comparison with the two previous years. The stations at which the largest traffic was registered during the past three years were —

Imposts levied by the Nepalese authorities.

23. During the past year there was no change in the system under which imposts are levied by the Nepalese authorities on traders after they leave, or before they enter, British territory. The rates of duty at different points on the frontier also remained the same as in the previous year. The usual statement giving details under this head is published in the appendix.

TRADE WITH TIBET AND SIKKIM.

Trade between Bengal and Tibet and Sikkim.

24. The total value of the trade of Bengal with Tibet and Sikkim registered during the past three years was as follows:—

	Trade with Tibet.			Trade with Sikkim.

25. There was again an increase in the year's trade both under imports and exports, and this may be attributed to a partial withdrawal of restriction of trade across the Sikkim-Tibet frontier. The chief articles of merchandise imported from these two States during the past year are compared below with the figures of the two previous years. The subjoined statement shows the chief articles of merchandise:—

Trade between Bengal and Bhutan.

27. Last year the trade between Bengal and Bhutan was registered at Ambari, Buxa, and Hantupara, in the Julpigoree district and at Pedong and Laba in the Darjeeling district. The following comparative statement shows the total value of the trade registered during the past three years:—

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1888-89	1,48,708	1,53,044	3,01,752

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKIM AND BHUTAN,

FOR THE YEAR 1891-92.

PUBLISHED BY THE GOVERNMENT OF BENGAL

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1892.

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKIM AND BHUTAN,

FOR THE YEAR 1891-92.

SECTION I.—GENERAL.

GENERAL NOTICE.

THE arrangements for collecting statistics of the external trade of Bengal with Nepal, Tibet, Sikim, and Bhutan remained unchanged during the past year.

2. The total value of this trade registered in Bengal during the past year, as compared with the figures of the two previous years, is shown below:—

	Total Imports.				Total Exports.			Grand total of traffic registered.		
	1889-90.	1890-91.	1891-92.		1889-90.	1890-91.	1891-92.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
From Nepal	1,10,22,588	1,24,89,199	1,00,16,603	To Nepal	90,88,447	96,90,232	98,38,024	2,01,11,035	2,21,79,431	1,98,54,627
„ Tibet & Sikim.	2,89,028	3,31,473	8,38,303	„ Tibet & Sikim.	2,44,643	3,23,014	3,30,120	5,33,671	6,54,487	11,68,423
„ Bhutan	1,85,441	1,82,659	1,84,892	„ Bhutan	1,91,939	1,84,612	1,34,848	3,77,380	3,67,271	3,19,740
Total ...	1,14,97,057	1,30,03,331	1,10,39,798	Total ...	95,25,029	1,01,97,858	1,03,02,992	2,10,22,086	2,32,01,189	2,13,42,790

3. It will be seen that the gross value of the trade during 1891-92 was 8·00 per cent. below the totals of the preceding year, but it was 1·53 per cent. over those of 1889-90. The decrease was entirely in the imports, the figures for the past year being 15·10 per cent. and 3·98 per cent. less than those of the two previous years respectively. This was mainly due to the failure of crops in Nepal through drought, which led the Nepal Government to place an embargo on all exports of rice and other food-grains; this prohibition is believed to have been in existence throughout the year, but it was rigidly enforced from about November 1891, when the failure of the winter rice had declared itself. The consequence was an almost complete stoppage of the food-grain traffic, which showed a decline in value of Rs. 24,99,861, or 45·04 per cent. on the returns of the preceding year. Under exports, there was an increase of 1·03 per cent. in comparison with 1890-91, and of 8·17 per cent. as compared with 1889-90.

Trade between Nepal and other parts of India through Bengal.

4. The figures given in paragraph 2, relating to the Nepal trade, include statistics of the trade between that State and other provinces which passed through, and was registered at, the registration stations in Bengal. The total value of that trade during the past three years was as follows:—

YEARS.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1889-90	98,175	1,86,615
1890-91	3,64,483	2,65,306
1891-92	3,04,102	4,57,838

No trade is carried on between the other frontier States and other provinces through Bengal.

SECTION II.—TRADE WITH NEPAL.

TRADE WITH NEPAL.

Trade between Bengal and Nepal.

5. Excluding the trade between Nepal and other provinces which only passed through Bengal, the total value of the trade between Nepal and the province of Bengal during 1891-92 is compared below with the figures of the two previous years:—

YEARS.	Imports from Nepal.	Exports to Nepal.	Total.
	Rs.	Rs.	Rs.
1889-90	1,09,24,413	89,01,832	1,98,26,245
1890-91	1,21,24,716	94,24,926	2,15,49,642
1891-92	97,12,501	93,80,186	1,90,92,687

The aggregate value of the past year's trade decreased by 11·40 per cent. and 3·70 per cent. as compared with 1890-91 and 1889-90 respectively. The import trade showed a falling off of 19·89 per cent. on the returns of the previous year, and of 11·09 per cent. on those of 1889-90. In the export trade the figures exhibited a decrease of ·47 per cent. in comparison with 1890-91, but they were 5·37 per cent. in excess of those for 1889-90.

6. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures shown therein, however, are exclusive of the registered trade with other provinces which passed through Bengal.

The greatest decrease in the import trade was in paddy (5,95,619 maunds), rice (4,38,406 maunds), miscellaneous food-grains (91,434 maunds), timber (19,255 maunds), and hides and skins; and the chief items of increase were tobacco, linseed, and mustard seed. In the export trade, European cotton piece-goods showed a falling off of Rs. 4,31,034 in value, while salt showed an advance of 41,906 maunds.

TRADE WITH NEPAL.

7. *Cattle.*—The decrease noticed in the last report in the importation of cattle into British territory was further extended during the year 1891-92, the principal district affected being Purnea, which imported 12,202 cattle, against 13,524 and 28,436 in the two previous years.

8. *Cotton Piece-goods.*—There was a further large decline in the exports of European piece-goods, the value having fallen by Rs. 4,31,034, or 15·89 per cent., as compared with 1890-91, and by Rs. 6,52,785, or 22·25 per cent., as compared with 1889-90. The largest falling off occurred in the consignments through Adapur, Raksaul, and Katkenwa in the Champaran district. The following comparative statement shows the exports of European piece-goods registered at the different stations during the past three years :—

9. *Food-grains.*—The import trade has largely decreased owing to the causes already described : the total supply carried from Nepal was 44·20 per cent. below the quantity recorded in 1890-91, and 27·32 per cent. below that registered in 1889-90. The following statement shows the total traffic in each

staple separately during the past year as compared with the totals of the preceding two years:—

It will be seen that, with the exception of wheat and other spring crops, there was a marked decrease in the imports of all other kinds of food-grains, notably in rice and paddy. The different registering posts through which food-grains were received from Nepal are shown in the subjoined table:—

TRADE WITH NEPAL.

10. *Hides of Cattle.*—The decrease noticed in the import trade in hides during 1890-91 was further extended during 1891-92. The total number registered showed a falling off of 20,486 pieces in comparison with the previous year, and of 33,379 pieces when compared with 1889-90. The statement below gives the names of the stations at which the largest number of hides were registered during the past three years:—

11. *Skins of sheep, goats, and other small animals.*—A decrease is also shown under this head, the total number imported being 54,314 pieces below the figures for 1890-91, and 30,991 pieces below those for 1889-90.

12. *Iron.*—There was a great recovery in the export trade, the total quantity having amounted to 15,891 maunds and 12,098 maunds in excess of the figures for 1890-91 and 1889-90 respectively.

13. *Ghee.*—The condition of this trade remained the same as in the previous year. The undermentioned stations registered the supplies during the past three years:—

TRADE WITH NEPAL.

16. *Oilseeds.*—Under this head come linseed and mustard seed, the import trade in both being very brisk during the year under report. The advance under linseed was 38·33 per cent. and 87·06 per cent. as compared with 1890-91 and 1889-90 respectively. In the case of mustard seed, the past year's figures showed a rise of 33·36 per cent. on the total of 1890-91, but they were still 20·26 per cent. below the supplies imported in 1889-90. The several stations through which the consignments were received from Nepal are as follows:—

17. *Spices.*—The total quantity registered under this head showed an increase of 29·44 per cent. on the trade of 1890-91, and of 11·49 per cent. on that of 1889-90. There was an advance under imports as well as exports. The registering stations where the largest quantities were recorded are noted below:—

18. *Tobacco.*—The gross traffic under this head shows an increase of 53,139 maunds as compared with 1890-91, and of 26,910 maunds as compared with 1889-90. The import trade was very brisk during the past year, the total quantity received from Nepal amounting to 79,254 maunds, against 23,181 maunds in 1890-91 and 53,344 maunds in 1889-90. The figures under exports, however, remained nearly the same as in the preceding two years.

19. *Timber.*—The import trade in timber would appear from the returns to be fast shrinking. The tendency to decrease noticed in the two previous reports continues to be felt, and there was a further decline during 1891-92, when the figures showed a falling off of 15·18 per cent. and 22·79 per cent. in comparison with 1890-91 and 1889-90. The stations at which the largest supplies were registered during the past three years were—

21. *Silver.*—The imports of silver showed a decrease of 25·57 per cent. on the trade of 1890-91, but an increase of 43·53 per cent. on that of 1889-90. The principal registering stations were:—

Imposts levied by the Nepalese authorities.

22. There was no change during the year in the system under which imposts are levied by the Nepalese authorities on traders after they leave, or before they enter, British territory. The usual statement giving details under this head is published in the appendix.

SECTION III.—TRADE WITH TIBET AND SIKIM.

TRADE WITH TIBET AND SIKIM.

Trade between Bengal and Tibet and Sikim.

23. As heretofore, the registration of the trade of Bengal with Tibet and Sikim was effected at Pedang, Ranjit, and Laba in the Darjeeling district. All these stations were kept open throughout the year. The total value of the past year's traffic is compared below with the figures of the two previous years :—

	Trade with Tibet.			Trade with Sikim.

24. The foregoing figures speak for themselves. The great advance in the imports from Tibet was due to the increased feeling of security, and to the development of the traffic in raw wool, musk, and yak-tails. A large consignment of gold, valued at Rs. 2,88,000, was for the first time registered during the past year. The supply was brought down loaded on mules for sale by two wealthy traders of Lhasa. The Deputy Commissioner, however, believes that the value has been enormously exaggerated in the return. In the case of Sikim, the increase in the exports therefrom was due to large consignments of food-grains and fresh fruits and vegetables. The total value of the chief items comprised in the import trade as registered during the past three years are given below :—

25. In the export trade, the demand for cotton and woollen piece-goods, salt, tobacco, and other articles was steady. The following statements show the principal articles exported to Tibet and Sikim during the past three years :— TRADE WITH TIBET AND SIKIM.

SECTION IV.—TRADE WITH BHUTAN.

TRADE WITH BHUTAN.

Trade between Bengal and Bhutan.

26. The trade between Bengal and Bhutan was, as usual, recorded at Ambari, Baxa, and Hantupara, in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. The total value of the trade registered during the past three years is shown below:—

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1889-90	1,85,441	1,91,939	3,77,380

1891-92	1,84,892	1,34,848	3,19,740

27. The fluctuations have not been very violent. It is, however, noticeable that a considerable supply of fresh fruits and vegetables was imported into British territory from Bhutan during the past year. The following statement shows for the past three years the total value of the principal articles in the export trade between Bengal and Bhutan:—

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM AND BHUTAN,

FOR THE YEAR 1893-94.

PUBLISHED BY THE GOVERNMENT OF BENGAL.

Calcutta:
PRINTED AT THE BENGAL SECRETARIAT PRESS.
1894.

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM AND BHUTAN

FOR THE YEAR 1893-94.

SECTION I.—GENERAL.

GENERAL NOTICE.

No change was made during the year under report in the system under which the external trade of Bengal with Nepal, Tibet, Sikkim and Bhutan, passing along all the important trade routes, is registered at registering posts on the northern frontier of Bengal between the districts of Champaran and Jalpaiguri. The number of such posts was 39, as detailed below, against 38 in 1892-93, a new station having been opened in the Darjeeling district for the registration of the Sikkim trade:—

	No. of registering posts.
For the registration of the Nepal trade	32
Ditto ditto Tibet and Sikkim trade ...	4
Ditto ditto Bhutan trade	3
Total ...	39

As regards the registration of the trade with Nepal, in addition to the 32 frontier stations, arrangements were made in June 1885 with the Traffic Superintendent of the Northern Bengal State Railway for the registration at Siliguri of commodities brought there from Nepal for despatch by the railway, and also of all consignments received at that station for export to Nepal. The traffic registered at Siliguri has, however, always been insignificant.

2. The total value of the registered trade of Bengal with these States during the past three years is shown below:—

	Total Imports.			Total Exports.

Total ...	2,13,42,790	1,87,98,781	2,10,30,223

3. There was an improvement of 11·87 per cent. in the amount of traffic registered during the past year in comparison with the amount registered in 1892-93, but the figures were still 1·46 per cent. below those of 1891-92. Compared with the year 1892-93, there was a rise in the import as well as in the export trade in the cases of Nepal, Tibet and Sikkim, but in the case of Bhutan the imports fell by 18·33 per cent., while the exports rose by 13·26 per cent. The causes of the fluctuations are explained in the following sections of this report which deal with each State separately.

GENERAL NOTICE.

4. The figures given in paragraph 2 relating to the Nepal trade include statistics of the trade between that State and other Provinces which passed through, and was registered at, the registration stations in Bengal. The total value of such traffic during the past three years was as follows:—

Trade between Nepal and other provinces of India through Bengal.

YEARS.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1891-92	3,04,102	4,57,838
1892-93	1,08,084	3,62,793
1893-94	83,610	3,32,188

In the case of the other three frontier States, no trade is carried on through Bengal with other Provinces of British India.

SECTION II.—TRADE WITH NEPAL.

TRADE WITH NEPAL.

5. Of the 33 stations at which this trade is registered, Patardewa in the Purnea district remained closed for six months, viz., from the 1st June to the 30th November 1893, and Sukiapukri and Karjulia in the Darjeeling district for three months, from the 16th June to the 15th September 1893. The subjoined table shows the value of the imports from, and exports to, Nepal during the past three years, exclusive of the trade between that State and other British Indian Provinces which passed through Bengal :—

Trade between Bengal and Nepal.

The increase in the aggregate value of exports and imports, which in 1891-92 declined 11·40 per cent. and in 1892-93, 10·80 per cent., is a satisfactory indication that trade is recovering. This value was 12·48 per cent. in excess of that of the preceding year, and ·33 per cent. in excess of that of 1891-92; the improvement was almost entirely in the import trade, which rose by 22·58 per cent. as compared with 1892-93, and by 12·26 per cent. in comparison with 1891-92; the export trade showed an advance of 1·42 per cent. as compared with 1892-93, but a decline of 12·03 per cent. when compared with 1891-92.

In the import trade the articles which chiefly contributed to the increase were rice (1,21,680 maunds), tobacco (56,662 maunds), paddy (51,703 maunds), and silver (valued at Rs. 4,43,943), against a decrease of 1,46,934 maunds under other rain crops. Under exports there was a falling off in wool manufactured (Rs. 1,29,999,) cotton piece-goods, European (Rs. 1,12,086), silk manufactured (Rs. 23,927), rice (15,338 maunds), and salt (12,381 maunds), against an increase of Rs. 3,24,755 under silver.

6. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures are exclusive of the registered trade with other Provinces which passed through Bengal.

7. *Cattle.*—The past year's figures show that the trade under this head recovered from the decline noticed in the reports for the two previous years. The Purnea district imported the largest number of cattle, 19,413 head having been registered there against 16,874 head in 1892-93, and 12,202 in 1891-92; next comes Muzaffarpur, with 7,440 head against 5,960 and 8,129 head in the two preceding years respectively; Champaran follows with 6,904 head against 6,817 in 1892-93, and 17,659 in 1891-92. The export trade is comparatively insignificant.

8. *Cotton Piece-goods.*—There was a further fall in the exports of European cotton piece-goods of 5·24 per cent. in comparison with 1892-93, and 11·12 per cent. as compared with 1891-92. The decrease occurred in the despatches through Champaran and Bhagalpur, the former district showing the largest decline, while the figures for the other districts show an improvement. The value of unsaleable goods brought back to British territory was Rs. 8,827, against Rs. 29,587 in 1892-93 and Rs. 46,670 in 1891-92. The value of Indian piece-goods exported to Nepal last year showed a falling off of 9·84 per cent. and 41·69 per cent. as compared with the two previous years respectively. Purnea is the principal district through which these Indian goods are sent to Nepal; last year it registered half the total exports. The exports of

European piece-goods registered at the different stations during the past three years are as follows:—

10. *Hides of Cattle.*—The trade under this head, which aggregated 65,013 pieces last year, is rapidly expanding, the increase being 38·99 per cent. as compared with 1892-93, and as much as 112·50 per cent. in comparison with 1891-92. The two principal districts into which hides are imported from Nepal are Purnea and Muzaffarpur. Last year the former received 26·83 per cent. of the total imports and the latter 25·97 per cent. The stations at which the largest imports were registered are the following :—

11. *Skins of sheep, goats, and other small animals.*—During the past year 62,996 skins were imported against 81,088 in 1892-93, and 30,333 in 1891-92. As usual, the largest number (27,958 pieces) was registered at Bairagnia in the Muzaffarpur district.

12. *Iron.*—There was a further fall last year in the export trade under this head, the decline being 4,500 maunds, or 23·15 per cent., as compared with 1892-93, and 11,793 maunds, or 44·11 per cent., as compared with 1891-92. The exports from Champaran decreased by 3,199 maunds, while Patna registered 1,046 maunds in 1892-93, against *nil* in the year under report.

13. *Ghi.*—The quantity of ghi imported from Nepal last year was very slightly below the quantity imported in 1892-93, as will be seen from the following statement, which gives the names of the registering posts at which the largest quantities were registered during the past three years:—

14. *All other kinds of provisions.*—The past year's figures show a revival in the import trade only: the total trade carried was 6·24 per cent. in excess of that of 1892-93, but 7·92 per cent. below that of 1891-92. In the import trade Purnea was by far the most important registering district, the quantity which passed through the stations in that district last year being 41,504 maunds out of a total quantity imported of 45,468 maunds. In the export trade Muzaffarpur, Champaran, and Purnea registered the largest quantities.

15. *Salt.*—The improvement noticed in the report for 1892-93 received a check during the year under report, the total exports being 12,381 maunds, or 7·44 per cent. below those of the previous year. While Champaran showed a decrease of 18,736 maunds, Calcutta of 6,750 maunds, and Bhagalpur of 2,539 maunds, Purnea exhibited an increase of 10,576 maunds, and Muzaffarpur of 3,539 maunds. The following are the registering stations through which the largest supplies were exported to Nepal during the past three years:—

16. *Oilseeds.*—Under this head the only staples in which the trade is important are linseed and mustard seed. The traffic, which is practically confined to imports, showed an increase of 15,899 maunds, or 10·16 per cent., under linseed, and a decrease of 5,282 maunds, or 2·72 per cent., under mustard seed as compared with the trade of the previous year. By far the largest quantities of linseed were imported into Muzaffarpur and Champaran, the figures for these districts 81,531 maunds and 44,064 maunds respectively, out of a total import of 1,72,413 maunds. In the case of mustard seed Purnea, with 1,05,883 maunds out of an aggregate supply of 1,88,662 maunds, heads the list of importing districts, and Bhagalpur and Muzaffarpur come next with 25,357 maunds and 23,361 maunds respectively. The following are the stations through which the largest supplies were received during the past three years:—

17. *Spices.*—It will be seen from the figures given below that there was a further fall both in the import and export trade. Under the former head the chief decline was in the quantity received in the Purnea district, viz., 3,802 maunds against 5,067 maunds in 1892-93; while as regards exports, the figures for Champaran fell from 6,496 maunds in 1892-93 to 3,268 maunds in the year under report. The largest quantities were registered at the following places:—

18. *Tobacco.*—This trade, which was in a very depressed state in 1892-93, recovered during the past year, the increase being most apparent under imports, which amounted to 79,254 maunds in 1891-92, 14,662 maunds in 1892-93, and 71,324 maunds during the year under report; the exports which fell from 42,125 maunds in 1891-92 to 27,497 maunds in 1892-93 stood at 29,295 maunds last year. In the import trade Purnea was the principal registering district, and in the export trade Muzaffarpur and Champaran give the largest results.

19. *Timber.*—The trade in timber has been steadily declining since 1888-89; the past year's figures were 20·81 per cent. below those of 1892-93, and 41·82 per cent. less than those of 1891-92. The Champaran district registered 60,360 maunds, or over 96 per cent., of the total import trade as shown in the following statement:—

20. *Wool, manufactured.*—The trade in woollen goods has always been subject to great fluctuations, but it was never so dull as it was during the past year, when the total value of the trade amounted to only Rs. 59,106 against Rs. 1,86,653 in 1892-93, and Rs. 98,369 in 1891-92. The decline was almost

21. *Silver.*—There were very large increases last year both in imports and exports of silver, the advance under the former head being Rs. 4,43,943, or 75·75 per cent., and Rs. 3,91,737, or 61·37 per cent., as compared with the two previous years respectively, and under the latter head Rs. 3,24,755, or 158·34 per cent., and Rs. 3,17,872, or 149·95 per cent. The largest quantities of silver during the past three years were registered at the following posts:—

Imposts levied by the Nepalese authorities.

22. As in previous years, no duties were levied on the frontier of the Purnea district by the Nepalese authorities on traders after they left or before they entered British territory. On the borders of the Darbhanga district an impost is levied only on *sabey*, a kind of grass for which there is a great demand in British territory for the manufacture of paper and the preparation of string. The levy of duties on the frontier of the Muzaffarpur district has ceased, but certain tolls are still levied by the ferry *ticcadars* on goods imported into British territory. On the borders of the Supaul subdivision of the Bhagalpur district the Nepal Government have, it is said, commenced to levy imposts. In the Champaran district there was no change in the imposts levied. As regards the Darjeeling district, the only change made in the past year was the discontinuance of the levy of duty on metals exported to Nepal. The details of these imposts are, as usual, embodied in the statements published in the appendix.

SECTION III.—TRADE WITH TIBET AND SIKKIM.

TRADE WITH TIBET AND SIKKIM.

Trade between Bengal and Tibet and Sikkim.

23. Up to the 3rd November 1893 the trade of Bengal with Tibet and Sikkim was registered at only three stations, viz., at Pedang, Ranjit, and Laba in the Darjeeling district. On the 4th November 1893 a new station was tentatively opened at Singla in the same district for the registration of the Sikkim trade possing over the newly constructed bridge across the Rummon river. The traffic which passes the Ranjit, Laba, and Singla stations is chiefly with Sikkim, while that which passes the Pedang station is almost entirely

with Tibet. The trade with Tibet is compared below with that of the two previous years:—

Exports from ditto	2,03,131	2,29,117	3,31,613
Total ...	8,21,277	5,80,636	6,90,412

24. Though the total trade with Tibet showed a recovery of 18·90 per cent. as compared with 1892-93, the figures were still 15·92 per cent. below those of 1891-92. The slight improvement noticeable in the import trade was entirely due to the expansion of the trade in raw wool, which alone formed 84·31 per cent. of the total imports; the traffic in the other chief commodities show a rapid decline. The rise in the export trade was chiefly due to larger transactions in indigo, European cotton piece-goods, brass and copper, and other manufactured articles of merchandise. The subjoined abstracts show the chief articles of merchandise imported from, and exported to, Tibet during the past three years:—

26. The trade with Sikkim showed a further increase of 15·47 per cent. and 41·20 per cent. in comparison with the two previous years. In the import trade the largest increase was under other rain crops, timber, gram and pulse, and hides of cattle, while in the export trade rice, salt, and mineral oil and cattle were the principal items which showed an advance. The chief articles of traffic

SECTION IV.—TRADE WITH BHUTAN.

TRADE WITH BHUTAN.

Trade between Bengal and Bhutan.

27. As heretofore, the traffic between Bengal and Bhutan was registered during the past year at Baksa, Hantupara, and Ambari in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. From the 1st April to the 31st October 1893, *i.e.*, for seven months, the Hantupara and Ambari stations remained closed on account of the rains. Baksa is the most important station for the registration both of the import and export trade. The following statement shows the total value of the trade registered during the past three years :—

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1891-92	1,84,892	1,34,848	3,19,740
1892-93	1,66,194	1,26,471	2,92,665
1893-94	1,35,735	1,43,241	2,78,976

28. These figures show that the trade with Bhutan is still declining. The decrease in 1892-93 occurred under imports as well as exports, but during the past year a decline is apparent under imports only, the exports showing an improvement of 13·26 per cent. over the figures of 1892-93, owing chiefly to larger despatches of European cotton and woollen piece-goods, rice, and tobacco: the decrease in the import trade amounted to 18·33 per cent. as compared with 1892-93, and was due to a falling off in the supplies of raw wool, fresh fruits

and vegetables, and yak-tails received from Bhutan. The principal articles of the import trade during the past three years are given below :— TRADE WITH BHUTAN.

30. It will be seen from the subjoined table that the trade in untaxed foreign salt imported from trans-Himalayan sources showed a decline of 11 maunds and 19 seers during the past year :— TIBETAN SALT.

The quantity imported into the Darjeeling district was 16 maunds 8 seers less than in 1892-93, but 2 maunds 27 seers in excess of the figures of 1891-92. Of the quantity brought into the Darjeeling district last year, 115 maunds came through the Sukiapukri station from Walang Cheng salt *gola* in Nepal, and the rest through Pedang station from Chombi in Tibet and from Lingiam in Sikkim. The quantity brought into the Jalpaiguri district showed an increase of 4 maunds 29 seers as compared with 1892-93, and of 8 maunds 34 seers as compared with 1891-92.

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM, AND BHUTAN

FOR THE YEAR 1894-95.

SECTION I.—GENERAL.

GENERAL NOTICE.

As in previous years, the collection of the statistics of the external trade of Bengal with Nepal, Tibet, Sikkim, and Bhutan was carried on in the registering stations on all the important trade routes, of which there are thirty-nine on the northern frontier of the Lower Provinces between the districts of Champaran and Jalpaiguri, as detailed below:—

	Number of registering posts.
For the registration of the Nepal trade	32
Ditto ditto Tibet and Sikkim trade ...	4
Ditto ditto Bhutan trade	3
Total ...	**39**

2. In the following statement the total value of the registered trade of Bengal with these States during the past year is compared with the figures of the preceding two years:—

Whence imported or whither exported.		Total value of imports into British territory.	Total value of exports from British territory.	Total value of traffic registered.

	1894-95	1,44,76,772	96,52,145	2,41,28,917

3. The foregoing statement shows an advance in the aggregate value of merchandise carried last year of 14·73 per cent. in comparison with 1893-94, and of 28·35 per cent. as compared with 1892-93. Under imports, there was an increase of 23·05 per cent. over the figures for the previous year, and of 48·26 per cent. over those for 1892-93; while under exports the increase during the past

GENERAL NOTICE.

year was 4·18 per cent., and 6·84 per cent. on the returns of the two previous years, respectively. The chief fluctuations are explained further on in the different sections of the trade dealt with in this report.

Trade between Nepal and other provinces of India through Bengal.

4. The figures given in paragraph 2 relating to the Nepal trade include statistics of the trade between that State and other provinces which passed through, and was registered at, the registration stations in Bengal. The total value of such traffic during the past year, as compared with the preceding two years, was as follows:—

YEARS.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1892-93	1,08,084	3,62,793
1893-94	83,610	3,32,188
1894-95	2,11,459	3,13,363

In the case of the other three frontier States, no trade is carried on through Bengal with other provinces of British India.

SECTION II.—TRADE WITH NEPAL.

TRADE WITH NEPAL.

Trade between Bengal and Nepal.

5. Last year all the stations for the registration of traffic with Nepal were kept open throughout the year, with the exception of Patardewa in the Purnea district, which remained closed for six months on account of the rains, and Sukiapukri and Karjulia in the Darjeeling district, where for the same reason no work was done for three months. The following is an abstract of the total value of the trade registered during the past three years:—

YEARS.	Imports from Nepal.	Exports to Nepal.	Total.
	Rs.	Rs.	Rs.
1892-93	88,94,812	81,35,281	1,70,30,093
1893-94	1,09,03,664	82,51,194	1,91,54,858
1894-95	1,29,94,472	84,46,011	2,14,40,483

The improvement noticed in the previous year's report was maintained and further extended during the past year, the aggregate value of the trade showing an increase of 11·93 per cent. over that of the previous year, and 25·90 per cent. over the figures for 1892-93. In the import trade, the figures for 1894-95 were 19·18 per cent. higher than those of the preceding year; while under exports, the increase amounted to 2·36 per cent. compared with 1893-94.

The largest increase in the import traffic was under food-grains (5,48,980 maunds), silver (Rs. 2,12,768), linseed (51,822 maunds), other fibres, raw (26,052 maunds), and provisions (21,848 maunds), and the largest decrease under timber (49,624 maunds) and mustard seed (18,442 maunds); while in the export traffic, European cotton piece-goods showed an advance of Rs. 1,82,089 in value, and Indian cotton piece-goods of Rs. 35,247 in value, against a decrease of Rs. 1,30,859 under silver.

6. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures are exclusive of the registered trade with other provinces which passed through Bengal.

7. *Cattle.*—The cattle trade showed a decrease of 9·61 per cent. on the returns of 1893-94, and an increase of 4·76 per cent. on those of 1892-93. The number imported into Bengal is said to have been 34,354, against 38,566 head and 32,301 head in the previous two years respectively.

8. *Cotton Piece-goods.*—There has been a great recovery in the trade in European cotton piece-goods, the total value of which exported to Nepal rose from Rs. 21,39,329 in 1892-93 and Rs. 20,27,243 in 1893-94 to Rs. 22,09,332 in 1894-95, but the value is still far less than in 1890-91, when it amounted to Rs. 27,11,897. The value of unsaleable fabrics returned to British territory, however, was very much less than in 1893-94, amounting to only Rs. 215, against Rs. 8,827 in 1893-94 and Rs. 29,587 in 1892-93. In the case of Indian piece-goods, transactions have continued fairly steady during the past three years.

The following statement shows the value for each of the past three years of the European piece-goods exported through each registering post district by district:—

TRADE WITH NEPAL.

By far the largest increase under imports is observable in "other rain crops" (2,24,463 maunds), paddy (1,00,273 maunds), rice (77,432 maunds), and "other spring crops" (66,798 maunds). The different registering posts through which food-grains were carried from Nepal are shown in the following statement:—

11. *Skins of sheep, goats, and other small animals.*—Under this head the large imports into British territory registered in 1892-93, namely, 81,088 pieces, was not reached during the past year, but the figures exceeded those for 1893-94 by 9,553 pieces. As usual, the largest number (25,237 pieces) was registered at Bairagnia in the Muzaffarpur district.

12. *Metals.*—The total quantity of brass and copper and their manufactures exported to Nepal fell off from 12,263 maunds in 1893-94 to 10,131 maunds in 1894-95, the money value of the trade amounting to Rs. 3,87,846 in 1892-93, Rs. 4,41,859 in 1893-94, and Rs. 3,68,512 in 1894-95. The exports of iron showed some improvement on the returns of the previous year, but they showed a decrease of 3,197 maunds or 16·45 per cent. in comparison with 1892-93.

13. *Ghi.*—The importation of *ghi* from Nepal fell off from 6,678 maunds in 1892-93 and 6,593 maunds in 1893-94 to 5,592 maunds in the year under report. The different stations where the supplies were registered in those years are—

16. *Oilseeds.*—There was great activity in the trade in linseed, the total increase amounting to 51,822 maunds as compared with 1893-94, and to 67,721 maunds as compared with 1892-93, but in the case of mustard seed the reverse was the result, there being a decrease of 18,442 maunds and 23,724 maunds on the figures for the two previous years respectively. The principal routes of traffic through which the largest quantities of oilseeds were imported during the past three years are shown below:—

20. *Wool, manufactured.*—There has been an improvement under this head during the past year, the imports showing an advance of Rs. 6,730 as compared with the previous year, and of Rs. 9,182 on the returns of 1892-93, and the exports an increase of Rs. 15,655 on the trade of 1893-94, and a decrease of Rs. 1,14,344 on that of 1892-93.

21. *Silver.*—The aggregate value of silver registered during the past year showed an increase of Rs. 81,909 and Rs. 8,50,607 on the figures for 1893-94 and 1892-93, respectively. In the import trade, there was an advance of Rs. 2,12,768 on the returns of 1893-94 and of Rs. 6,56,711 on those of 1892-93, and the fluctuations in the export trade were a decrease of Rs. 1,30,859 as compared with 1893-94 and an increase of Rs. 1,93,896 in comparison with 1892-93. The largest quantities of silver during the past three years were registered at the following posts:—

Imposts levied by the Nepalese authorities.

22. As in previous years, no duties were levied on the frontier of the Purnea district by the Nepalese authorities on traders after they left or before they entered British territory. As regards the Darbhanga district, duties are no longer levied on imports into Nepal from British territory. In the case of exports from Nepal, however, certain articles were taxed. The levy of duties on the frontier of the Muzaffarpur district has ceased, but certain tolls are still levied by the ferry *ticcadars* on goods imported into British territory. On the borders of the Supaul subdivision of the Bhagalpur district the Nepal Government levy imposts. In the Champaran district there was no change in the imposts levied. In the Darjeeling district, too, there was no change in the duties levied on articles exported from Nepal, but in the case of certain articles imported into Nepal, taxes were levied for the first time last year at Dahugiri, Baradhesi and Ghyaladoba. The details of these imposts are, as usual, embodied in the statements published in the appendix.

SECTION III.—TRADE WITH TIBET AND SIKKIM.

TRADE WITH TIBET AND SIKKIM.

Trade between Bengal and Tibet and Sikkim.

23. The registration of traffic crossing the frontier between Bengal and Tibet and Sikkim was carried on during the past year at four stations, namely, Pedang, Ranjit, Laba, and Singla in the Darjeeling district. The

last-named is a new station; it was tentatively opened for nine months commencing from the 4th November 1893, and its retention has since been sanctioned for another twelve months from the 4th August 1894. The station at Pedang chiefly intercepts the Tibet trade, while the other three register the traffic to and from Sikkim. The results of the past year's transactions with Tibet are compared below with those of the preceding two years:—

Total ...	5,80,636	6,90,412	11,49,150

24. The aggregate value of the past year's traffic was 66·44 per cent. in excess of that of the previous year and very nearly double that of 1892-93. The import trade increased as much as 95·47 per cent. and 99·52 per cent. when compared with 1893-94 and 1892-93 respectively. This was due to the large accession of traffic under raw wool, musk, horses, ponies and mules, and yak-tails. Under exports there was an advance of 35·04 per cent. and 95·45 per cent. over the figures of the preceding two years, the principal items of increase being silver, cotton piece-goods, woollen goods, and indigo; while the trade in brass and copper, tobacco, and shell-lac fell off considerably. The abstracts below show the chief articles of merchandise imported from, and exported to, Tibet during the past three years:—

TRADE WITH TIBET AND SIKKIM.

26. Compared with 1893-94 and 1892-93, the total value of the traffic during the past year increased by 47·88 per cent. and 70·76 per cent. respectively. The rise under imports is attributable to the increased traffic in food-grains, cattle, spices, sheep and goats, and provisions including ghi; while under exports the figures show an advance in almost all the important articles, notably cotton goods, both European and Indian, cattle, salt, and brass and copper. The demand for Bengal rice, however, was slack in the Sikkim market during the year. The chief articles imported from, and exported to, Sikkim during the past three years are named in the following statement:—

SECTION IV.—TRADE WITH BHUTAN.

TRADE WITH BHUTAN.

27. The trade of Bengal with Bhutan continued, as in former years, to be registered at Baksa, Hantupara, and Ambari in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. All these stations were kept open throughout the year, with the exception of Hantupara and Ambari, which were closed for seven months during the rains. The great bulk of the trade, both import and export, however, is registered at Baksa. The subjoined statement gives the total value of the trade registered during the past three years:—

Trade between Bengal and Bhutan.

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1892-93	1,66,194	1,26,471	2,92,665

1894-95	1,50,614	1,38,963	2,89,577

28. There has been little or no change in the total traffic registered during the past three years. Compared with 1893-94 the chief fluctuations in the import traffic consist in an increase under Indian woollen manufactures, wax, and fresh fruits and vegetables, while there was a heavy decrease under raw wool. As regards exports, there was a falling off under tobacco and European

cotton and woollen goods, while the traffic in betelnuts, Indian silk manufactures, and European cotton twist and yarn showed an increase. TRADE WITH BHUTAN.

The principal articles imported from Bhutan during the past year are compared below with the figures of the two previous years:—

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM AND BHUTAN,

FOR THE YEAR 1895-96.

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM, AND BHUTAN

FOR THE YEAR 1895-96.

SECTION I.—GENERAL.

GENERAL NOTICE.

THE system under which the trade of Bengal with Nepal, Tibet, Sikkim, and Bhutan is registered remained unchanged during the year under review. There was, however, a re-arrangement of some of the stations for the registration of the Nepal traffic on the frontier of the Darbhanga district. In consequence of the opening of the Bengal and North-Western Railway and of several new roads which now cross the frontier of that district into Nepal, it was found that the traffic to and from that State had been diverted and thrown into new channels, and that some of the registration stations which had been selected so far back as 1879, when roads were scarce, did not command the present main routes of trade. It therefore became necessary to re-adjust the stations on the borders, and accordingly the station at Pipra Ghât was abolished, the Mirzapur station was removed two miles to the north-east along the road, and new posts were opened at Khajauli, Phulparas, and Jhitki. These orders came into force on 4th February 1896. The total number of stations at the close of 1895-96 on the northern frontier of the Lower Provinces between the districts of Champaran and Jalpaiguri for the registration of the frontier trade of Bengal were thus 41 against 39 in 1894-95, as noted below:—

2. The total value of the registered trade of Bengal with these States during the past year is compared below with the figures of the preceding two years:—

	1895-96	1,35,82,769	1,13,55,980	2,49,38,749

GENERAL NOTICE.

3. The aggregate value of the trade with these four States improved by 3·36 per cent. in comparison with 1894-95, and by 18·58 per cent. in comparison with 1893-94. The past year's trade with Nepal showed an increase of 3·79 per cent. as compared with 1894-95, but that with Bhutan exhibited a decrease of 8·16 per cent., while that with Tibet and Sikkim practically remained stationary. The principal fluctuations are noticed in the subsequent sections of this report, in which the trade with each State is reviewed separately.

Trade between Nepal and other provinces of India through Bengal.

4. The figures given in paragraph 2, relating to the Nepal trade, include statistics of the trade between that State and other provinces in British India which passed through, and was registered at, the registration stations in Bengal. The total value of such traffic during the past year, as compared with the figures of the preceding two years, was as follows:—

YEARS.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1893-94	83,610	3,32,188
1894-95	2,11,459	3,13,363
1895-96	44,205	2,64,448

The large decrease in the "imports into other provinces from Nepal" during 1895-96 was almost entirely due to a smaller import of cattle into Assam, the value of which fell from Rs. 1,72,042 in 1894-95 to Rs. 7,875 in 1895-96. As regards the "exports from other provinces to Nepal," the falling off in the past year's trade was mainly due to a decline in the consignments of salt from Jeypur in Rajputana, the value of which amounted to Rs. 70,286, against Rs. 1,30,627 in 1894-95.

In the case of the other three frontier States, no trade is carried on through Bengal with other provinces.

Trade with China through Tibet.

5. The trade with Tibet and Sikkim, as shown in the statement in paragraph 2, includes articles sent to, and received from, China, through Buxa, in Jalpaiguri, which appears to be the only station in Bengal through which trade with China passes. Under the orders of the Government of India goods in transit to and from China *vid* Tibet are to be registered as trade with Tibet, mention being made in the annual report of the commodities declared for export to China or as coming from China. In accordance with these instructions, the necessary particulars are given in section III of this report.

SECTION II.—TRADE WITH NEPAL.

TRADE WITH NEPAL.

Trade between Bengal and Nepal.

6. Last year all the stations for the registration of traffic with Nepal were kept open throughout the year, with the exception of Patardewa in the Purnea district, which remains closed from June to November on account of the rains, and Sukiapukri and Karjulia in the Darjeeling district, which are closed for the same reason from 15th June to 15th September. The following is an abstract of the total value of the trade registered during the past three years:—

YEARS.	Imports from Nepal.	Exports to Nepal.	Total.
	Rs.	Rs.	Rs.
1893-94	1,09,03,664	82,51,194	1,91,54,858
1894-95	1,29,94,472	84,46,011	2,14,40,483
1895-96	1,23,16,610	1,01,72,614	2,24,89,224

The foregoing figures show a further expansion of trade during the year under review, the increase being 4·89 per cent. and 17·41 per cent., as compared with 1894-95 and 1893-94, respectively. The imports last year were 5·22 per cent. below the figures of 1894-95, but they were 12·96 per cent. higher than those of 1893-94. As regards the export trade, last year's figures showed an increase of 20·44 per cent. and 23·28 per cent. over the figures of 1894-95 and 1893-94, respectively.

The import trade showed a decrease chiefly under silver and provisions other than ghi, while the export trade showed a large increase under both those

articles as well as under European cotton piece-goods, brass and copper, spices, and tobacco. TRADE WITH NEPAL.

7. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures are exclusive of the registered trade with other British provinces which passed through Bengal:—

8. *Cattle.*—The imports of cattle last year were 18·62 per cent. over those of 1894-95, and 5·67 per cent. over those of 1893-94. The largest trade is carried on through Purnea, which registered 13,939 head out of the total import of 40,751 head. Then came Muzaffarpur and Champaran. The number of cattle exported is comparatively insignificant.

9. *Cotton piece-goods, European.*—The value of the exports of these goods, which amounted to Rs. 23,30,978, represented nearly one-fourth the value of

the total exports to Nepal during the past year. By far the largest consignments were sent through the Champaran district, which last year registered Rs. 11,87,434 worth, or a little over half the trade of the year. No unsaleable goods were returned to British Territory during the year under review. The exports of Indian piece-goods are steadily improving, Purnea being the district through which the largest supplies are sent to the frontier.

The following comparative statement shows the exports of European piece-goods registered at the different stations during the past three years :—

11. *Hides of Cattle.*—There was a recovery in the import trade in hides during the past year: compared with 1894-95 and 1893-94, the increase amounted to 8·64 per cent. and 4·18 per cent., respectively. No hides are exported to Nepal. The registering posts through which the largest supplies were received are as follows:— TRADE WITH NEPAL.

12. *Skins of sheep, goats, and other small animals.*—As in the case of hides, the trade in skins of sheep, goats, and other small animals is confined to imports. The number of skins received from Nepal last year amounted to 66,725, against 72,549 in 1894-95, and 62,996 in 1893-94. This trade is carried on almost entirely through the Champaran and Muzaffarpur districts, which last year registered 30,158 and 25,042 skins, respectively.

13. *Metals.*—The exports to Nepal of brass and copper and their manufactures showed a very large increase of 4,395 maunds, or 43·38 per cent., as compared with the figures of 1894-95, and of 2,263 maunds, or 18·45 per cent., in comparison with those of 1893-94. The exports of iron and its manufactures also showed an improvement of 1,711 maunds, or 10·55 per cent., and 3,014 maunds, or 20·17 per cent., over the figures of 1894-95 and 1893-94, respectively. The largest exports of metals are sent through the Champaran and Purnea districts.

14. *Ghi.*—The supply of ghi from Nepal is steadily declining, the imports last year being 4,961 maunds, against 5,592 maunds in 1894-95, and 6,593 maunds in 1893-94. The undermentioned stations registered the supplies during the past three years—

15. *All other kinds of provisions.*—Under this head a large trade is carried on both in imports and exports. Last year, however, the import trade, amounting to 57,281 maunds, showed a decrease of 10,035 maunds as compared with 1894-95, but compared with 1893-94, an increase of 11,813 maunds is observed.

TRADE WITH NEPAL. The supplies are received almost exclusively through the Purnea district, where nearly 94 per cent. of the total imports last year were registered. The export trade shows great development, the quantity sent to Nepal in 1895-96 being 83,709 maunds, against 70,631 maunds and 59,902 maunds in the previous two years, respectively. The largest exports are registered in the Champaran district, and then come Muzaffarpur and Purnea.

The following statement shows the principal registering posts through which the supplies were carried:—

17. *Oilseeds.*—The chief articles of trade comprised under this head are linseed and mustard seed, and in both cases the figures for the past year showed a decrease. In the case of *linseed*, the trade last year was 4·81 per cent. below that of 1894-95, but compared with that of 1893-94, it showed an increase of 23·54 per cent. Out of the total imports of 2,13,380 maunds, the stations in the Muzaffarpur district registered 1,14,414 maunds, or 53·62 per

cent., and then came Champaran with 59,416 maunds, or 27·84 per cent. The imports of *mustard seed* are rapidly declining, the past year's figures being 20·03 per cent. and 27·85 per cent. below those of the previous two years, respectively. Of the importing districts, Purnea with 83,338 maunds, or 61·23 per cent., out of the total supply of 1,36,117 maunds, heads the list, and Bhagalpur comes next with 21,050 maunds, or 15·46 per cent. The routes by which the largest quantities of oilseeds were imported during the past three years are shown below:— TRADE WITH NEPAL.

18. *Spices other than betelnuts.*—Spices are imported from, as well as exported to, Nepal. The trade last year under both heads showed a very large increase over the figures of the previous two years. Out of the total imports a little over one-third was registered in each of the districts of Bhagalpur and Purnea, while as regards exports a little over half was registered in the Champaran district alone. The largest quantities were registered during the past three years at the stations named below:—

19. *Sugar.*—The trade in sugar, refined and unrefined, is practically limited to exports. The quantity of refined sugar sent to Nepal last year was 11,294 maunds, against 9,948 maunds in 1894-95 and 8,204 maunds in 1893-94, and the exports of unrefined sugar, 48,243 maunds, against 42,281 maunds and 35,533 maunds in 1894-95 and 1893-94, respectively. The largest exports of both kinds of sugar are made through the Champaran and Purnea districts.

20. *Tobacco.*—While the imports of tobacco from Nepal are gradually falling off, the exports to that State are rapidly increasing, the net result last year being an advance of 7,401 maunds. The imports have declined from 71,324 maunds in 1893-94, and 70,336 maunds in 1894-95, to 65,090 maunds in 1895-96; whereas the exports rose from 29,295 maunds in 1893-94 and 31,290 maunds in 1894-95, to 43,937 maunds in 1895-96. Of the total imports, the Purnea district registered 76·35 per cent., and of the exports, the Champaran district registered 54·32 per cent. The principal routes through which the trade was carried in the past three years are specified below:—

21. *Timber.*—The trade under this head is confined to imports. It was in a very depressed state in 1894-95, but revived during the past year, though the figures were still below those of 1893-94, as will be seen from the subjoined statement which gives details of the trade:—

	Total imports	62,579	12,955	52,856

22. *Wool, manufactured.*—In the imports from Nepal during the past year there was a small decline of Rs. 1,933 as compared with the figures of 1894-95, but there was an advance of Rs. 4,797 as compared with the trade of 1893-94. The exports to Nepal showed an improvement of Rs. 18,713 and Rs. 34,368 on the figures of the previous two years, respectively. The imports are received almost exclusively through the Darjeeling district, where last year 91·55 per cent. of the total supplies were registered, while the exports are sent chiefly through the Champaran district, where 73·14 per cent. were registered.

23. *Silver.*—The aggregate trade of the past year showed a small falling off of 7·94 per cent. as compared with the previous year, but the imports from Nepal fell to nearly half those of 1894-95, while the exports were more than doubled. These fluctuations occurred chiefly in the trade registered in the Champaran district. The largest quantities of silver during the past three years were registered at the following posts:—

Imposts levied by the Nepalese authorities.

24. In the Bhagalpur district, the imposts which were formerly levied by the Nepalese authorities on traders entering or leaving Nepal were abolished during 1895-96. In the Muzaffarpur district no duties were imposed, but certain tolls continued to be levied by ferry farmers on articles exported from Nepal. On the borders of the Darbhanga district exports from Nepal were taxed, but not imports. No change was made in the imposts levied on the frontier of the Champaran district. On the borders of the Purnea district no duties had been levied in previous years, but in 1895-96 both imports into, and exports from, Nepal were taxed. At the Nepal Terai stations of Dhulabari, Dahugiri, Baradhesi, and Ghyalodoba, in the Darjeeling district, certain articles both of import and export were taxed for the first time last year. In some cases the taxes levied in previous years were enhanced, while the duty

on safflower imported into Nepal was abolished. No changes were made in the rates levied at the other stations in the district. The details of these imposts are, as usual, embodied in the statements published in the appendix.

SECTION III.—TRADE WITH TIBET AND SIKKIM.

TRADE WITH TIBET AND SIKKIM.

Trade between Bengal and Tibet and Sikkim.

25. The traffic between Bengal and Tibet and Sikkim continued to be registered during the past year at the four stations of Pedang, Ranjit, Laba, and Singla in the Darjeeling district. All these stations were kept open throughout the year. The last-named station, which was experimentally opened on the 4th November 1893, was permanently sanctioned in August 1895. The total value of the past year's traffic with Tibet is compared below with that of the preceding two years:—

	Trade with Tibet.

Total ...	6,90,412	11,49,150	9,74,528

26. The increase noticed in the report for 1894-95 was not maintained during the year 1895-96. There was, on the other hand, a decline of 15·19 per cent. Compared with 1893-94, however, the past year's figures show a very substantial improvement of 41·15 per cent. The fall of 10·81 per cent. in the import trade was chiefly due to smaller despatches of raw wool, musk, and yak tails—articles the trade in which with Tibet is far larger than with other States. As regards exports, the past year's figures show a decrease of 22·07 per cent. on those of 1894-95, but an increase of 5·24 per cent. on those of 1893-94. The principal fluctuations were a decrease under European cotton piece-goods, indigo, and "other" articles of merchandise, manufactured, against an increase under silver, brass and copper, iron, "other" rain crops, and paints and colours. The following statement shows the principal commodities imported from, and exported to, Tibet during the past three years:—

28. The results of the past year's transactions with Sikkim are compared below with those of the previous two years:—

29. The trade with Sikkim is rapidly expanding, the aggregate value of the past year's traffic being 24·21 per cent. over that of 1894-95 and nearly double that of 1893-94. The improvement in the imports into British territory was chiefly under spices (other than betelnuts), fresh fruits and vegetables, provisions (other than ghi), raw cotton, sheep and goats, gram and pulse, and yak tails. The trade in the last-named article, which was valued at only Rs. 622 in 1892-93 and which had altogether ceased in the two subsequent years, was revived during the year under report, the value of the imports being Rs. 3,000. The commodities which showed the largest advance in the exports to Sikkim were silver, tobacco, Indian cotton piece-goods, brass and copper, European cotton twist and yarn, vegetable and mineral oils, and horses, ponies, and mules; the returns of previous years do not show that silver was ever before exported to Sikkim. For the first time since 1890-91 horses, ponies, and mules were exported to Sikkim during the year 1895-96. The following table shows the chief articles imported from, and exported to, that state during the past three years:—

SECTION IV.—TRADE WITH BHUTAN.

TRADE WITH BHUTAN.

Trade between Bengal and Bhutan.

30. The registration of traffic crossing the frontier between Bengal and Bhutan was carried on during the past year at the same five stations as in previous years, namely, at Buxa, Hantupara, and Ambari in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. Hantupara and Ambari were closed during the rainy season, viz., from April to October; and the other stations remained open the whole year. Buxa was as usual the most important registering station. The total value of the trade registered during the past three years is given below:—

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1893-94	1,35,735	1,43,241	2,78,976
1894-95	1,50,614	1,38,963	2,89,577
1895-96	1,29,856	1,36,077	2,65,933

31. The decrease in the trade last year was almost entirely in imports, and was chiefly due to a falling off in the supplies of raw wool, the trade in which is now insignificant. In the export trade, the largest decreases were under European woollen fabrics, rice, and European cotton piece-goods, and the articles which showed the largest increase were Indian silk and cotton piece-goods, and refined sugar. The principal articles imported from Bhutan during the past year are compared below with the figures of the two previous years:—

The Deputy Commissioner of Darjeeling says that the increase in the imports into that district "does not call for any special remarks." The total imports last year were 32·20 per cent. and 23·39 per cent. in excess of the supplies received during the previous two years, respectively. Of the quantity that passed through the Darjeeling district in the year under review, 6 maunds were registered at Ranjit and the rest at Sukiapukri, where all the imports came from the Walang Cheng golâ in Nepal as in the previous year. No untaxed foreign salt is imported into British territory through any of the other frontier districts.

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM, AND BHUTAN

FOR THE YEAR 1896-97.

SECTION I.—GENERAL.

GENERAL NOTICE.

THE system under which the trade of Bengal with Nepal, Tibet, Sikkim, and Bhutan is registered remained unchanged during the year under review, and, as in 1895-96 was carried on at 41 stations on the northern frontier of the Lower Provinces between the districts of Champaran and Jalpaiguri as noted below:—

For the registration of the	Nepal trade	...	34	posts.
Ditto ditto	Tibet and Sikkim trade	...	4	,,
Ditto ditto	Bhutan trade ...	...	3	,,
	Total	...	41	

2. The total value of the registered trade of Bengal with these States during the past year is compared below with the figures of the preceding two years:—

Whence imported or whither exported.		Total value of imports into British territory.	Total value of exports from British territory.	Total value of traffic registered.

	1896-97	1,59,14,193	1,30,48,084	2,89,62,277

3. The aggregate value of the trade with these four States in 1896-97 improved by 16·13 per cent. in comparison with 1895-96, and by 20·03 per cent. in comparison with 1894-95. The past year's trade with Nepal showed an increase of 16·78 per cent. as compared with 1895-96, and that with Tibet and Sikkim of 10·63 per cent., while that with Bhutan remained practically stationary. The principal fluctuations are noticed in the subsequent sections of this report, in which the trade with each State is reviewed separately.

GENERAL NOTICE.

4. The figures given in paragraph 2, relating to the Nepal trade, include statistics of the trade between that State and other provinces in British India which passed through, the registration stations in Bengal. The total value of this traffic during the past year, as compared with the figures of the preceding two years, was as follows:—

Trade between Nepal and other provinces of India through Bengal.

YEARS.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1894-95	2,11,459	3,13,363
1895-96	44,205	2,64,448
1896-97	41,307	2,85,757

The "imports into other provinces from Nepal" remained nearly the same as in the preceding year, but as regards the "exports from other provinces to Nepal," the figures under European cotton piece-goods rose from Rs. 27,800 to Rs. 51,852, the chief sources of supply being Fyzabad (Rs. 31,935 against Rs. 3,900) and Goruckpur (Rs. 15,600 against Rs. 5,200); increases are also observable under Indian piece-goods, "other kinds" of animals, raw cotton, saline substances, other than saltpetre, and unrefined sugar, but there was a large falling off in the exports of salt from Jeypur in Rajputana, namely, Rs. 22,238, against Rs. 70,286, in 1895-96.

In the case of the other three frontier States, no trade is carried on through Bengal with other provinces.

5. The trade with Tibet and Sikkim, as shown in the statement in paragraph 2, includes articles sent to, and received from, China, through Buxa, in Jalpaiguri, the only station in Bengal at which trade with China is registered as such. Under the orders of the Government of India goods in transit to and from China *vid* Tibet are to be registered as trade with Tibet, mention being made in the annual report of the commodities declared for export to China or as coming from China. In accordance with these instructions, the necessary particulars are given in section III of this report.

Trade with China through Tibet.

SECTION II.—TRADE WITH NEPAL.

TRADE WITH NEPAL.

6. Last year all the stations for the registration of traffic with Nepal were kept open throughout the year, with the exception of Patardewa in the Purnea district, which remains closed from June to November on account of the cessation of trade during the rains, and Sukiapukri and Karjulia in the Darjeeling district, which are closed for the same reason from 15th June to 15th September. The following is an abstract of the total value of the trade registered during the past three years:—

Trade between Bengal and Nepal.

YEARS.	Imports from Nepal.	Exports to Nepal.	Total.
	Rs.	Rs.	Rs.
1894-95	1,29,94,472	84,46,011	2,14,40,483
1895-96	1,23,16,610	1,01,72,614	2,24,89,224
1896-97	1,44,08,086	1,18,88,760	2,62,96,846

The aggregate value of the past year's trade increased by 16·93 per cent. and 22·65 per cent. in comparison with 1895-96 and 1894-95 respectively. The import trade showed an advance of Rs. 20,91,476 on the returns of the previous year, and of Rs. 14,13,614 on those of 1894-95. In the export trade the figures exhibited an advance of Rs. 17,16,146 as compared with 1895-96, and of Rs. 34,42,749 as compared with 1894-95.

Compared with 1895-96, the largest increase in the import traffic was under silver (Rs. 32,17,259), hides (31,718 pieces), skins, saltpetre, linseed, mustard seed, and timber, and the largest decrease under food-grains (4,12,296 maunds); while in the export traffic, the articles showing an advance are European piece-goods (Rs. 1,17,751 in value), salt (60,519 maunds), unrefined sugar (11,459 maunds), tobacco (12,774 maunds), iron and betelnuts; articles

which show a large decrease are silver (Rs. 4,31,298) and fresh fruits and vegetables. TRADE WITH NEPAL.

7. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures are exclusive of the registered trade with other British provinces which passed through Bengal:—

8. *Cattle.*—Imports of cattle have remained almost stationary in amount during the past two years. The number of cattle exported, however, during the past year was 16,727, against 5,733 and 8,551 in 1895-96 and 1894-95 respectively. The increase was practically confined to the Darbhanga district through which 11,408 head of cattle passed, against only 905 in 1895-96. No explanation of this very large increase has been received, but it is probably due to cultivators in British territory havinig had to part with their cattle dowing to the famine.

9. *Cotton piece-goods, European.*—There was a further large increase in the exports of European piece-goods, the value having risen by Rs. 1,17,751 as compared with 1895-96, and by Rs. 2,39,397 as compared with 1894-95. All the districts except Purnea and Muzaffarpur show an increase, Champaran standing first with an increase of Rs. 1,46,738. The Collector of that district makes the following remarks in regard to exports generally to Nepal:—"The portion of Nepal facing Champaran has not suffered from distress to any thing like the same extent as this district, and the people appear to have been able to go on importing. But it is also said that some of the goods find their way to Tibet." The decrease in the value of the exports of piece-goods through the Purnea district was very trifling, viz. Rs. 8,216, but in the case of the Muzaffarpur district the decline was about 50 per cent., viz. from Rs. 2,88,175 in 1895-96 to Rs. 1,44,644 in the year under review, and is ascribed to a falling off in the demand in Nepal and to smaller exports owing to scarcity in Muzaffarpur. No unsaleable goods were returned to British territory during the year under report. The trade in Indian piece-goods was very much the same as in the two previous years.

The following comparative statement shows the exports of European piece-goods registered at the different stations during the past three years :—

Owing to short crops in Nepal and the consequent prohibition by the Nepal authorities of exports of food-grains from that State during the latter half of the year, there was a decrease in the imports under all the heads. The statistics of the trade registered on the frontier of the Darbhanga district, however, show that notwithstanding the prohibition, large quantities of food-grains came through from Nepal and greatly added to the resources of the district. The Collector makes the following remarks on the subject:—

"The main feature of the year's trade with Nepal is the increase in the imports of food-grains. The increase is remarkable, as the export of grain from Nepal was forbidden during the busiest exporting season. There is no reason to suppose that registration was more correct last year than in previous years, so it shows how extensively smuggling over the frontier went on. A very large part of the export must have escaped registration, as a great deal of the smuggling went on at night."

The subjoined statement gives the names of the different registering posts through which food-grains were received from Nepal :—

11. *Hides of Cattle.*—The increase noticed in the preceding year's report was maintained, the supplies received showing an advance of 31,718 pieces and 37,102 pieces on the returns of 1895-96 and 1894-95, respectively. The prevalence of cattle disease in the Morang district in Nepal is said to have resulted in a large exportation of hides from that State. The stations at which the largest imports were registered are:—

Out of the year's imports, 24,386 pieces were registered at Bairagnia in Muzaffarpur, 21,787 pieces at Katkenwa, and 15,451 pieces at Adapur in Champaran.

TRADE WITH NEPAL.

13. *Metals.*—The trade in brass and copper and articles made of these metals is steadily increasing. The quantity exported during the year was valued at Rs. 5,43,941, against Rs. 5,30,200 and Rs. 3,68,512 in 1895-96 and 1894-95, respectively. Of the year's supply, 10,345 maunds, valued at Rs. 3,87,662, were exported *viâ* the Champaran district.

14. *Ghi.*—There was a recovery in the import trade in *ghi*, the total quantity having amounted to 5,664 maunds, against 4,961 maunds in 1895-96 and 5,592 maunds in 1894-95. The different stations where the largest quantity was registered in those years are—

15. *All other kinds of provisions.*—Under this head a large trade is carried on both in imports and exports. Last year, however, the import trade, amounting to 46,318 maunds, showed a decrease of 10,963 maunds as compared with 1895-96, and of 20,998 maunds as compared with 1894-95. The export trade, however, was practically the same as in the preceding year, but, as compared with 1894-95 the figures for 1896-97 showed an increase of 10,902 maunds.

The following statement shows the principal posts at which this trade was registered:—

17. *Oilseeds.*—Linseed and mustard seed are the only two oilseeds in which the trade is important. The traffic is practically confined to imports, and shows an increase under linseed of 20,369 maunds and 9,514 maunds as compared with 1895-96 and 1894-95. In the case of mustard seed, however, the figures showed an increase of 11,652 maunds as compared with the preceding year and a decrease of 22,451 maunds on the totals of 1894-95. The improvement under both heads is atributed to a larger outturn in Nepal.

The following are the stations where the largest quantity was registered during the three years:—

TRADE WITH NEPAL.

18. *Spices other than betelnuts.*—The fluctuation in the exports under this head was not very great, the total quantity registered being only 2,272 maunds in excess of the figures for the previous year, and 6,993 maunds over those for 1894-95. The largest quantities were registered during the past three years at the stations named below :—

19. *Sugar.*—The total quantity of refined sugar sent to Nepal was 15,129 maunds, against 11,294 maunds in 1895-96 and 9,948 maunds in 1894-95, while the supply of unrefined sugar rose from 42,281 maunds in 1894-95 and 48,243 maunds in 1895-96 to 59,702 maunds in 1896-97. The increase in both kinds of sugar is said to be due to the establishment of the Nepalgunge market and to the dealers there having imported large quantities for storage and sale. The under-mentioned stations have registered large quantities during the past three years:—

20. *Tobacco.*—The imports have remained stationary during the past two years, but the exports rose from 31,290 maunds in 1894-95 and 43,937 maunds in 1895-96 to 56,711 maunds during the year under report. The principal routes through which the trade was carried in the past three years are specified below:—

22. *Wool, manufactured.*—There was little or no variation in the supplies imported from Nepal during the past three years, but the total value of the exports to that state fell off from Rs. 55,039 in 1894-95 and Rs. 73,752 in 1895-96 to Rs. 51,401 in 1896-97. 23. *Silver.*—The chief feature in the imports of treasure is a considerable increase of Rs. 32,17,259 and of Rs. 26,53,616, in comparison with the figures for 1895-96 and 1894-95 respectively. The exports, however, showed a falling off of Rs. 4,30,598 on the figures for the preceding year, but there is an increase of Rs. 2,626 as compared with 1894-95. The principal registering stations were :—

Imposts levied by the Nepalese authorities.

24. In the Bhagalpur district no imposts were levied by the Nepalese authorities on traders entering or leaving Nepal during 1896-97. In the Muzaffarpur district no duties were imposed, but the Nepal Government have, it is said, prohibited the exportation into British territory of sabey grass, bamboo, leaves of molhan, (for thatching purposes) and food-grains on which a toll had formerly been levied. On the frontier of the Darbhanga district, exports from Nepal of chiretta, monjit, balcheri, incense, bark of cinnamon tree, sabey grass and medicinal drugs were taxed, but not imports. No change was made during the year in the imposts levied on the frontiers of the Champaran and Darjeeling districts. On the borders of the Purnea district, both imports into, and exports from, Nepal were taxed. No duties or imposts were levied from traders by the Bhutan authorities. The details of these imposts are, as usual, embodied in the statements published in the appendix.

SECTION III.—TRADE WITH TIBET AND SIKKIM.

Trade between Bengal and Tibet and Sikkim.

25. The traffic between Bengal and Tibet and Sikkim continued to be registered during the past year at the four stations of Pedang, Ranjit, Laba, and Singla in the Darjeeling district. All these stations were kept open throughout the year. A re-arrangement of these stations, however, is under the consideration of Government. After consulting the Political Officer of Sikkim and the Deputy Commissioner of Darjeeling, the Commissioner of the Rajshahi Division made the following recommendations regarding the registration of this trade:—

(1) that the trade with Tibet be registered at Guntak and Yatung, instead of at the existing stations under the control of the Deputy Commissioner;
(2) that the registration of the Sikkim trade, which is very small, be abandoned; and
(3) that the stations maintained for the registration of the trade of Bengal with Tibet and Sikkim be abolished.

The Government of Bengal has accepted the first proposal as providing amply for the registration of the Tibet trade. With regard to the second proposal, the Commissioner has been informed that a record of the trade across the frontier is required both by the Government of India and by Her Majesty's Secretary of State to complement the monthly accounts of the foreign trade of the Empire, and that, therefore, this trade should continue to be registered for some time to come. In connection with the third proposal, it has been pointed out to the Commissioner that Pedang and Laba are two of the stations at which a portion of the Bhutan traffic is intercepted, and a record of the traffic with that State would become imperfect if those two stations were abolished, and a report has accordingly been called for by Government on the question which, if any, of the existing registration stations, are actually required for the registration of the trade between Bengal and Sikkim and Bhutan.

The total value of the past year's traffic with Tibet is compared below with that of the preceding two years:—

	Trade with Tibet.		
	1894-95.	1895-96.	1896-97.

Total ...	11,49,150	9,74,528	9,00,375

26. The decrease in the aggregate value of goods registered was Rs. 74,153, or 7·61 per cent. as compared with the previous year, and Rs. 2,48,775, or 21·65 per cent. as compared with 1894-95. No Tibetan woollen manufactures or silver was imported during the year under review; the other noticeable fluctuations are a decrease under raw wool, animals for sale, and yak-tails against an increase under musk, Indian and Chinese woollen manufactures. In the export trade, a falling off is shown in the traffic in European cotton goods, brass and copper, rice, miscellaneous rain crops, and sugar, while there were increases under silver, indigo, tobacco, and "all other articles of merchandise, manufactured." In 1895-96 the value of European woollen manufactures exported to Tibet was Rs. 46,937, but during 1896-97 it fell to Rs. 26,974. The following statement shows the principal commodities imported from, and exported to, Tibet during the past three years:—

29. The trade with Sikkim is rapidly expanding, the aggregate value of the past year's traffic being 30·36 per cent. greater than that of 1895-96 and 61·93 per cent. greater than that of 1894-95. The improvement in the imports into British territory was chiefly under spices (other than betelnuts), provisions (other than ghi), timber and horses, ponies and mules; on the other hand, the articles which showed a marked decrease were fresh fruits and vegetables, cattle, raw cotton, and Indian woollen manufactures. In the exports to Sikkim the largest advance was under provisions (other than ghi); there were small decreases under European cotton piece-goods, and woollen manufactures. The following table shows the chief articles imported from, and exported to, that state during the past three years:— TRADE WITH TIBET AND SIKKIM.

SECTION IV.—TRADE WITH BHUTAN.

30. The registration of traffic crossing the frontier between Bengal and Bhutan was carried on during the past year at the same five stations as in previous years, namely, at Buxa, Hantupara and Ambari in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. Hantupara and Ambari were closed during the rainy season, viz., from April to October, and the other stations remained open the whole year. Buxa continued to be the most important registering station. The total value of the trade registered during the past three years is given below:— TRADE WITH BHUTAN.

Trade between Bengal and Bhutan.

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1894-95	1,50,614	1,38,963	2,89,577
1895-96	1,29,856	1,36,077	2,65,933
1896-97	1,19,713	1,44,471	2,64,184

TRADE WITH BHUTAN.

31. The decrease in the trade last year was entirely in imports, and was due chiefly to a falling off in the supplies of Indian woollen manufactures and cotton piece-goods; there were no imports of raw wool during the year while the articles which showed an improvement were wax, musk, and horses, ponies and mules. The Deputy Commissioner of Jalpaiguri states that the decrease under wool, raw and manufactured, cotton piece-goods, and yak-tails is due to a fall in the demand for those articles in the plains. Regarding exports, the Deputy Commissioner writes:—

"The increase in traffic may be attributed to the growing appreciation of the articles amongst the Bhutias, to the facilities offered to them for obtaining their supplies at the foot of the hills by establishing markets, and at the fairs opened every year by Government at Falakata and Alipur, and also to the fact that the articles are sold at higher rate to the Bhutias than to the local purchasers."

In the export trade the largest decreases were under European cotton piece-goods and twist and yarn, and the articles which showed the largest increase were betelnuts, tobacco, European woollen manufactures, and brass and copper. Regarding twist and yarn, it is explained that the decrease may be attributed to the small hand-loom manufacture of coarse cloths by Bhutia women, and also to the fact that they prefer to purchase ready-made cloths instead of buying cotton twist and weaving their own cloths, as the mill-made cloths cost less than those which the women make for themselves. The principal articles imported from Bhutan during the past year are compared below with the figures of the two previous years:—

TIBETAN SALT.

33. The following comparative statement shows the total quantity of untaxed foreign salt imported into British territory from trans-Himalayan sources during the past three years:—

Import of untaxed foreign salt from trans-Himalayan sources.

The entire quantity that passed through the Darjeeling district in the year under review was registered at Sukiapukri, and came from the Walang Cheng golâ in Nepal, as in the previous year. No untaxed foreign salt is imported into British territory through any of the other frontier districts.

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM, AND BHUTAN

FOR THE YEAR 1897-98.

SECTION I.—GENERAL.

THE system under which the trade of Bengal with Nepal, Sikkim, and Bhutan is registered, remained unchanged during the year under review, and, as in 1896-97, was carried on at 41 stations on the northern frontier of the Lower Provinces between the districts of Champaran and Jalpaiguri, as noted in the margin. With regard to the Tibet trade, it was stated in paragraph 25 of the Report for 1896-97 that the Lieutenant-Governor had accepted the proposal made by the local officers that the trade with that State should be registered at Guntok and Yatung instead of at the stations under the control of the Deputy Commissioner of Darjeeling. The necessary instructions for the registration of the traffic were issued in November 1897, and the Commissioner of the Rajshahi Division was asked to obtain and furnish Government with statistics of trade from 1st January 1898 as registered at Yatung by the Chinese Customs Department, and to establish a registration post at Guntok. The Political Officer of Sikkim, however, reports that it has been found impossible to complete the necessary arrangements in time, and therefore no statistics of the traffic with that State for the last three months of the year under report are available. Such statistics as have been furnished have been shown in section III of this report.

2. The total value of the registered trade of Bengal with the four States during the past year is compared below with the figures of the preceding two years. The figures relating to the Tibet trade are for nine months only as explained above:—

Total	1895-96	1,36,19,895	1,13,55,980	2,49,75,875
	1896-97	1,59,14,193	1,30,48,084	2,89,62 277
	1897-98	1,57,11,267	1,56,46,475	3,13,57,742

Compared with the two preceding years, the total registered trade of the past year showed a rise of 8·27 per cent. and 25·56 per cent., respectively. The imports showed a falling off of 1·28 per cent. on the figures for 1896-97, but an advance of 15·36 per cent. in comparison with those of 1895-96. Under exports the increase during the past year was 19·91 per cent. and 37·78 per cent. respectively on the returns of the two previous years. The causes of the fluctuations are explained below.

Trade between Nepal and other provinces of India through Bengal.

3. The figures given in paragraph 2, relating to the Nepal trade, include statistics of the trade between that State and other provinces in British India which passed through the registration stations in Bengal. The total value of this traffic during the past year, as compared with the figures of the preceding two years, is shown separately as follows:—

Years.	Imports into other Provinces from Nepal.	Exports from other Provinces to Nepal.
	Rs.	Rs.
1895-96	44,205	2,64,448
1896-97	41,307	2,85,757
1897-98	13,726	3,01,138

The "imports into other Provinces from Nepal" fell to less than one-third of the figures of 1895-96 and 1896-97, but the "exports from other Provinces to Nepal" showed an improvement of 5·38 per cent. and 13·87 per cent., as compared with the figures for the previous two years respectively; the figures under European cotton piece-goods rose from Rs. 51,852 to Rs. 95,479, the chief sources of supply being Fyzabad (Rs. 64,070 against Rs. 31,935) and Goruckpur (Rs. 25,159 against Rs. 15,600); and those under Indian cotton piece-goods from Rs. 95,545 in 1896-97 to Rs. 1,40,540 during the year under review. Increases are also observable under sheep and goats, "other kinds" of provisions except ghi, and shawls, but there was a large falling off in the exports of "other kinds" of animals, raw cotton, vegetables, sugar (both refined and unrefined), manufactured wool, and salt from Jeypur in Rajputana.

No trade is carried on through Bengal between other Provinces and the three other Frontier States.

Trade with China through Tibet.

4. No trade with China through Tibet was registered during 1897-98; but the particulars for the two previous years are given in section III of this report.

SECTION II.—TRADE WITH NEPAL.

Trade between Bengal and Nepal.

5. All the stations for the registration of traffic between Bengal and Nepal were kept open throughout the year, with the exception of Patardewa in the Purnea district, which remained closed from June to November, on account of the cessation of trade during the rains, and Sukiapukri and Karjulia in the Darjeeling district, which were closed for the same reason from 16th June to 15th September. The following is an abstract of the total value of the trade registered during the past three years:—

Years.	Imports from Nepal.	Exports to Nepal.	Total.
1895-96	1,23,16,610	1,01,72,614	2,24,89,224
1896-97	1,44,08,086	1,18,88,760	2,62,96,846
1897-98	1,46,97,183	1,46,54,634	2,92,51,817

The figures show a further extension of trade during the past year, the increase in the aggregate value amounting to Rs. 29,54,971 and Rs. 67,62,593 over the figures of 1896-97 and 1895-96, respectively. The import trade showed an advance of Rs. 1,89,097 on the returns of the previous year, and of Rs. 22,80,573 on those of 1895-96. The export trade also exhibited an increase of Rs. 27,65,874 as compared with 1896-97, and of Rs. 44,82,020 as compared with 1895-96.

Compared with the preceding year, the largest increase in the import traffic was under hides (152,540 pieces), tobacco (42,795 maunds), edible grain-crops (90,885 maunds), rice (46,346 maunds), paddy (184,225 maunds), mustard seed (57,896 maunds), ghi, fresh fruits and vegetables, and raw fibres other than jute; while the largest decrease occurred under silver (Rs. 26,30,620), linseed (81,093 maunds), timber (28,557 maunds), wheat, miscellaneous spring crops, provisions other than ghi, saltpetre, and sheep-skins. In the export traffic, the articles which showed a considerable advance were silver (Rs. 28,87,331 in value), salt (66,126 maunds), tobacco (41,224 maunds), fresh fruits and vegetables, and all food-grains except miscellaneous spring crops; the articles in which there was a falling off were manufactured wool (Rs. 14,499), sugar, both refined and unrefined (17,475 maunds), provisions other than ghi (9,011 maunds), betelnuts, cattle, sheep and goats.

6. The usual comparative statement showing the total quantity and value of the principal staples carried both ways during the past three years is appended. The figures are exclusive of the registered trade with other British Provinces which passed through Bengal:—

7. *Cattle.*—Imports of cattle to British territory amounted to 45,323 head against 39,142 and 40,751 during 1896-97 and 1895-96, respectively, the chief importing districts being Purnea and Darbhanga, which together received 29,005 head. The number of cattle exported during the past year showed a decrease of 10,915 head in comparison with the preceding year, although the figures for the past year were equal to those for 1895-96. The falling off was practically confined to the Darbhanga district, from which only 750 head of cattle were exported against 11,408 in 1896-97 and 905 in 1895-96; this large decrease indicates the return of trade to its normal condition, as with the cessation of famine and a good outturn of crops, it was no longer necessary for the cultivators of that district to sell their cattle as they did in 1896-97.

8. *Cotton piece-goods, European.*—There was a falling off in the exports of European piece-goods, the value having declined by Rs. 49,445 as compared with that recorded in 1896-97, but the figures showed an increase of Rs. 68,306 in comparison with those of 1895-96. All the districts, except Champaran and Darjeeling, show a decrease, Darbhanga standing first with a falling off to the value of Rs. 74,592. The Collector of Darbhanga explains that the decrease of exports was apparently due to the fact that the quantity supplied to Nepal last year had been excessive. The decrease in the exports through Bhagalpur and Purnea amounted to Rs. 48,874 and Rs. 62,473, respectively, as compared with the figures for 1896-97. The Collector of Purnea attributes the decrease to the fact that there were fewer marriages during the year, and also that more country-made cloths are now being manufactured by the Nepalese. With reference to the increase of Rs. 1,43,035 in Champaran, the Collector writes:—"The portion of Nepal adjoining Champaran did not suffer from distress to anything like the same extent as this district did, and the people appear to have been able to go on importing. It is also said that some of these goods find their way to Tibet." No unsaleable goods were returned to British territory during the year under report. The trade in Indian piece-goods was approximately the same as in the two previous years.

The following comparative statement shows the exports of European piece-goods registered at the different stations during the past three years:—

Good crops in Nepal, the withdrawal of the prohibition of exports from that State which had been imposed during the famine, and the higher prices prevailing in the plains, stimulated imports from that country.

10. *Cattle Hides.*—The increase noticed in the report of the preceding two years continued during 1897-98, the supplies received showing an advance of 152,540 pieces and 184,258 pieces on the returns of 1896-97 and 1895-96, respectively. The prevalence of cattle disease in Nepal and an increased demand in Calcutta led to large imports from Nepal. The stations at which the largest imports were registered were as follows:—

11. *Skins of sheep, goats, and other small animals.*—The total imports under this head amounted to 73,929 pieces, as compared with 85,151 pieces in 1896-97, and 66,725 pieces in 1895-96. Out of the year's imports, 22,549 pieces were registered at Bairagnia and 10,740 pieces at Bela in Muzaffarpur, 12,024 pieces at Katkenwa and 11,491 pieces at Adapur in Champaran.

12. *Metals.*—The trade in brass and copper, and articles made of these metals is steadily increasing. The quantity exported during the year was valued at Rs. 6,07,154, against Rs. 5,43,941 and Rs. 5,30,200 in 1896-97 and 1895-96, respectively. Of the year's supply, 10,342 maunds, valued at Rs. 4,00,752, were exported *viâ* the Champaran district.

13. *Ghi.*—Owing to a large demand in Calcutta the increase in the imports of ghi continued during the year under report, the total quantity having amounted to 8,268 maunds, against 5,664 maunds in 1896-97 and 4,961 maunds in 1895-96. The different stations, where the largest quantities were registered in those years, are shown below:—

14. *All other kinds of provisions.*—Under this head a large trade is carried on both in imports and exports. Last year, however, the import trade showed a decrease of 5,191 maunds, as compared with 1896-97, and of 16,154 maunds, in comparison with 1895-96; the falling off was possibly due to good harvests in the Lower Provinces. The export trade also showed a falling off of 9,011 maunds and 11,187 maunds, as compared with the figures for 1896-97 and 1895-96, respectively, but no explanation of the cause of the decrease has been received.

The following statement shows the principal posts at which this trade was registered:—

15. *Salt.*—Consequent on the opening of large store-houses for salt in Nepal, the increase noticed during the preceding two years in the exports of that article, continued during 1897-98, the figures showing an advance of 66,126 maunds and 1,26,645 maunds as compared with 1896-97 and 1895-96, respectively. The largest quantity of salt registered at the different stations during the past three years is shown below:—

16. *Oilseeds.*—Linseed and mustard seed are the only two oilseeds in which an important trade is carried on. The traffic is practically confined to imports. During the year there was a decrease under linseed of 81,093 maunds and 60,724 maunds, as compared with 1896-97 and 1895-96. In the case of mustard seed, however, the figures showed an increase of 57,896 maunds and 69,548 maunds, as compared with the totals of 1896-97 and 1895-96, respectively. The improvement under the latter head is attributed to a larger outturn in Nepal and to a greater demand in the Calcutta market.

The following are the stations where the largest quantity was registered during the three years:—

18. *Sugar.*—The total quantity of refined sugar sent to Nepal was 11,610 maunds, against 15,129 maunds in 1896-97 and 11,294 maunds during 1895-96, while the supply of unrefined sugar fell from 59,702 maunds in 1896-97 and 48,243 maunds in 1895-96 to 45,746 maunds during the past year. The decline under these heads was probably due to the existence of stocks in hand from the large supply sent in the previous year. An extensive traffic was registered at the following stations :—

19. *Tobacco.*—The import trade in tobacco showed an advance of 42,795 maunds and 42,521 maunds, as compared with the figures for 1896-97 and 1895-96, respectively. The export trade also was 41,224 maunds and 53,998 maunds in excess of the figures of the two previous years. Of the year's exports, 75,166 maunds were registered in Champaran, 12,490 maunds in Muzaffarpur, and 6,696 maunds in Purnea. The principal routes through which the trade was carried in the past three years are specified below:—

20. *Timber.*—The trade under this head, which is confined to imports, revived during 1896-97, but again declined during the past year, as will be seen from the following statement:—

21. *Wool, manufactured.*—There was little or no change in the supplies imported from Nepal during the past three years, but the total value of the exports to that State fell from Rs. 73,752 in 1895-96 and Rs. 51,401 in

1896-97 to Rs. 36,902 in 1897-98. The several stations through which the consignments were sent are shown below :—

22. *Silver.*—The imports from Nepal fell off in value from Rs. 38,96,419 in 1896-97 to Rs. 12,65,799 during the year under report, the chief importing districts being Champaran, Bhagalpur, Darjeeling and Purnea, which received silver to the extent of Rs. 7,97,259, Rs. 1,02,157, Rs. 1,84,285 and Rs. 1,52,745, respectively. The main feature in the export of treasure is a considerable increase of Rs. 28,87,331 and of Rs. 24,56,733 over the figures of the two previous years. Of the year's export silver worth Rs. 29,55,000 was sent through Raksaul in Champaran during May, August and October 1897. The Resident at Nepal says:—" Silver worth Rs. 25,00,000 was actually imported into Nepal by the Darbar in October 1897, and so large a quantity was purchased at one time, simply because it was then selling at a very low rate." The principal registering stations were :—

Imposts levied by the Nepalese authorities.

23. In the Bhagalpur district no imposts were levied by the Nepalese authorities on traders entering or leaving Nepal during 1897-98. In the Muzaffarpur district no duties were imposed, but it is alleged that the Nepal Government prohibited the exportation into British territory of certain articles during a portion of the year. On the frontier of the Darbhanga district, exports from Nepal of certain articles, such as medicinal drugs, &c., were taxed, but not imports. No change was made during the year in the imposts levied on the frontiers of the Champaran district. In the Darjeeling district taxes were levied for the first time last year on turmeric, raw jute, gunny-bags, and earthen vessels imported from Nepal, and on linseed and wool manufactured exported to that State; the duties on certain articles of import as well as export were also revised during the year. On the borders of the Purnea district, both imports into, and exports from, Nepal were taxed. No duties or imposts were levied from traders by the Bhutan authorities. The details of these imposts are, as usual, embodied in the statements published in the appendix.

SECTION III.—TRADE WITH TIBET AND SIKKIM.

Trade between Bengal and Tibet and Sikkim.

24. As explained in paragraph 1 of this report, statistics of traffic with Tibet are available for nine months only. The traffic between Bengal and Sikkim continued to be registered during the past year at the four stations of Pedang, Ranjit, Laba and Singla in the Darjeeling district, all of which stations were kept open throughout the year.

Trade with Tibet.

The total value of the past year's traffic with Tibet is compared below with that of the preceding two years:—

	Trade with Tibet.

The figures for 1897-98 are for nine months only, but even allowing for that, there are several instances of noticeable fluctuations, which have not been explained, *e.g.*, the decrease in the importation of musk and yak-tails from Tibet and of exports to Tibet of cotton piece-goods (European), wool manufactured (European , other articles of merchandise, and provisions other than ghi.

26. For the purposes of his Annual Report for 1897-98, the Political Officer of Sikkim has obtained from the Chinese Customs Department statistics

of trade between British territory and Tibet during the year, and a copy of the statement having been furnished to the Statistical Department, is published below. According to those figures the total value of the imports from Tibet during the official year 1897-98 amounted to Rs. 8,79,720 and the exports to Rs. 8,23,340. No details of these figures have, however, been furnished, those given below referring to the calendar year 1897. The articles of trade as given in the Political Officer's returns have been recast according to the classification adopted for purposes of traffic registration, while the values shown are declared values as registered at the Yatung market, and are not calculated values as in the case of the returns appended to this report:—

27. The following statement shows the articles of trade that passed through Tibet to and from China during the years 1895-96 and 1896-97, being registered at Buxa on the borders of the Jalpaiguri district. No such trade was registered at that station during 1897-98 as already stated in paragraph 4 of this report:—

28. The result of the past year's trade with Sikkim is compared below with those of the two previous years:—

Trade with Sikkim.

	Trade with Sikkim.		
	1895-96, Rs.	1896-97. Rs.	1897-98. Rs.

Total ...	9,37,537	11,73,808	8,59,002

29. The trade with Sikkim declined during the past year, the aggregate value of the traffic being less by 26·81 per cent. and 8·37 per cent. than that in 1896-97 and 1895-96, respectively. The improvement in the imports into British territory was chiefly under miscellaneous grain-crops, gram and pulses, fresh fruits and vegetables, hides, and foreign tea; the articles, which showed a marked decrease, were timber, spices (other than betel-nuts), provisions (other than ghi), cattle, sheep and goats, ghi, Indian cotton piece-goods, rice, raw cotton, coal and coke. In the exports to Sikkim the largest increase occurred under provisions (other than ghi), Indian cotton piece-goods, animals, (other than horses, ponies, mules, cattle, sheep and goats), oils, both mineral and vegetable, and Indian cotton twist, while there were noticeable decreases under European cotton piece-goods, European cotton twist, rice, silver, brass and copper and their manufactures, fresh fruits and vegetables, cattle, unrefined sugar and salt. The following table shows the chief articles imported from, and exported to, that State during the past three years:—

SECTION VI.—TRADE WITH BHUTAN.

30. The trade of Bengal with Bhutan continued, as in previous years, to be registered at Buxa, Hantupara and Ambari in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. All these stations were kept open throughout the year, with the exception of Hantupara and Ambari, which

were closed for seven months from April to October on account of the rains. The great bulk of the trade, both import and export, is registered at Buxa. The following statement gives the total value of the trade registered during the past three years:—

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1895-96	1,29,856	1,36,077	2,65,933
1896-97	1,19,713	1,44,471	2,64,184
1897-98	1,08,194	1,37,460	2,45,654

31. The total traffic registered has remained practically uniform during the past three years. In comparison with 1896-97, the chief fluctuations in the import traffic were shown in an increase under the heads of fresh fruits and vegetables, cattle and Indian silk manufactures, and a decrease in the case of wax, musk, horses, ponies, mules and Indian wool manufactures. As in 1896-97, there was no import of raw wool during the past year. The Deputy Commissioner of Jalpaiguri, states that the general decrease in the value of imports was due to the falling off in the demand consequent on the scarcity during the year under report. In exports, there was a decline under the items of cotton and woollen piece-goods of European manufacture, betelnuts, unrefined sugar and Indian silk manufactures, while the traffic in Indian cotton piece-goods, tobacco, rice, brass, and copper and their manufactures showed an improvement. The decrease under the above heads is attributed to the fact that the traffic from Calcutta to Torsa was entirely stopped from June to September 1897, owing to the damage caused to the railway line by the earthquake, while the roads from Jalpaiguri to Buxa *viâ* Alipur Duar, and from Falakata to Hantupara were also rendered entirely unfit for traffic for nearly six months during the year. The increase under the head of rice was due to the failure of the *haimanti* and *bhadoi* crops in Bhutan.

The principal articles imported from Bhutan during the past year are compared below with the figures for the two previous years:—

Import of untaxed foreign salt from trans-Himalayan sources.

33. The following comparative statement shows the total quantity of untaxed foreign salt imported into British territory from trans-Himalayan sources during the past three years:—

	1895-96.	1896-97.	1897-98.

The entire quantity that passed through the Darjeeling district in the year under review was registered at Sukiapukri. It is not stated from which mart in Nepal this quantity was imported. No untaxed foreign salt was imported into British territory through any other frontier district.

REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET, SIKKIM AND BHUTAN

FOR THE YEAR 1898-99.

SECTION I.—GENERAL.

In the past year the only changes made in the arrangements for collecting the statistics of the trade with Nepal, Tibet, Sikkim, and Bhutan consisted in the discarding of Pedong, Laba, and Ranjit as stations for the Tibet trade (though they were retained for the other trade). The total number of stations thus became 43, as shown in the margin. The figures relating to the Tibet trade shown in this report are for the whole year 1898-99.

2. Since the issue of the Government of India's Resolution No. 2, dated 14th June 1876, prescribing the classification of articles in the accounts of the frontier trade, various amendments have been made from time to time, and the Director-General of Statistics has issued a revised list embodying all the corrections made up to 1st April 1899. He has also extended to all provinces the two heads "Apparel" and "Paper" which were in 1876 restricted to Burma. Copies of the modified list have been forwarded to the 7 Frontier District Officers, and they have been requested to issue instructions for the registration of the traffic in the two new heads from 1st April 1899.

Classification of articles.

3. The following comparative statement shows the total value of the trade registered in Bengal during the past three years. The statistics given in respect of the Tibet trade for 1897-98 are for nine months only.

* For nine months only.

It will be seen that the gross value of the trade during 1898-99 was 5·4 per cent. below the totals of the preceding year, but 2·4 per cent. over those of 1896-97. The decrease was entirely in the exports, the figures for the past year being 14·2 per cent. less than those for 1897-98; but in comparison with 1896-97 they showed an increase of 2·9 per cent. The causes of the fluctuations are explained in the following sections of this report, which deal with each State separately.

Trade between Nepal and other provinces of India through Bengal.

4. The figures given in paragraph 2, relating to the Nepal trade, include statistics of the trade between that State and other provinces in British India, which passed through the registration stations in Bengal. The total value of this traffic during the past year, as compared with the figures of the preceding two years, is shown separately as follows:—

YEARS.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1896-97	41,307	2,85,757
1897-98	13,726	3,01,138
1898-99	26,961	4,43,914

The largest increase occurred in the exports from Cawnpore of raw cotton (from Rs. 3,303 to Rs. 63,287), Indian twist and yarn (from nothing to Rs. 99,856), and European twist and yarn (from Rs. 3,127 to Rs. 26,365). The figures under the head "Other kinds of animals" rose from Rs. 12,230 to Rs. 48,556, the chief source of supply being Lucknow. The exports of European piece-goods, however, fell off from Rs. 95,479 to Rs. 70,653, and those of Indian piece-goods from Rs. 1,40,540 to Rs. 86,666 in 1898-99. In this latter case Ghazipur and Gorakhpur showed the largest decrease.

There has been, however, a large increase in the export of piece-goods registered as coming from this Province.

No trade is carried on through Bengal between other provinces and the three other Frontier States.

Trade with China through Tibet.

5. No trade with China through Tibet was registered during 1897-98 and 1898-99, but the particulars for the year 1896-97 are given in section III of this report.

SECTION II.—TRADE WITH NEPAL.

Trade between Bengal and Nepal.

6. Of the 34 stations at which this trade is registered owing to the rains, Patardewa, in the Purnea district, remained closed for six months, viz., from the 1st June to the 30th November 1898, and Sukiapukri and Karjulia, in the Darjeeling district, for three months, from 16th June to 15th September 1898. The following statement shows the total value of the imports from, and exports to, Nepal during the past three years, exclusive of the trade between that State and other British Indian Provinces which passed through Bengal:—

YEARS.	Imports from Nepal.	Exports to Nepal.	Total.
	R.	Rs.	Rs.
1896-97	1,44,08,086	1,18,88,760	2,62,96,846
1897-98	1,45,97,183	1,46,54,634	2,92,51,817
1898-99	1,44,14,430	1,13,99,933	2,58,14,363

The aggregate value of the past year's trade decreased by 11·7 per cent. and 1·8 per cent., as compared with 1897-98 and 1896-97, respectively. The import trade showed a falling off of 1·2 per cent. on the returns of the preceding year, but it was very nearly the same as in 1896-97. In the export trade, the figures exhibited a decrease of 22·2 per cent. in comparison with 1897-98 and of 4·1 per cent. on the totals for 1896-97.

The greatest decrease in the import traffic was in silver (Rs. 6,58,661), rice (1,02,718 maunds) owing to the non-existence of famine, hides (94,643 pieces), miscellaneous rain crops (73,854 maunds), tobacco (68,875 maunds), and fibres,

other than raw jute (31,249 maunds), and the chief items of increase were paddy (1,38,471 maunds), linseed (1,36,253 maunds), miscellaneous spring crops (35,398 maunds), and mustard seed (29,110 maunds). In the exports there was a considerable falling off under silver of 30 lakhs, or nearly the difference between the total exports of the two years. In fact the decrease in the import and export of silver is greater than the total decrease in the returns of the year. Salt showed a decrease of 53,974 maunds and tobacco of 24,632 maunds, while manufactured woollen goods rose in value from Rs. 36,902 in 1897-98 to Rs. 48,400 in 1898-99.

7. The usual comparative statement, showing the total quantity and value of the principal staples carried both ways during the past three years, is appended. The figures are exclusive of the registered trade with other British Provinces which passed through Bengal:—

8. *Cattle.*—The figures show an improvement both under imports and exports, although they are still slightly below the trade of 1896-97. The Champaran district imported the largest number of cattle, 15,849 head having been registered there, as against 6,874 head in 1897-98 and 9,284 head in 1896-97; the imports into Darbhanga fell off from 13,874 head to 4,961 head; those into Purnea from 15,131 head to 11,996 head, while those into Muzaffarpur rose from 7,952 head to 12,046 head. The exports were practically confined to Purnea, which supplied 6,386 head, as against 4,933 head in the preceding year.

9. *Cotton Piece-goods, European.*—The large increase in the exports of European piece-goods to Nepal is specially noticeable, the total value being 3 lakhs more than that of 1897-98 and 2½ lakhs than that of 1896-97. All the districts except Darbhanga show an increase, Champaran standing first with an advance of nearly 2½ lakhs in comparison with 1897-98. The large increase in the exports from Champaran occurred notwithstanding the fact that the traffic was stopped for two months owing to the railway line having been damaged by the heavy floods that occurred in September 1898; while the roads to Nepal were also rendered unfit for traffic for nearly three months. The decrease under Darbhanga is attributed to the "discouragement to intercourse with this district exercised during the year by the Nepal officials as a precaution against the introduction of plague." The Collector of Purnea reports that the increase was owing to the opening of the Nepalganj market, where these articles are largely sold. The Deputy Commissioner of Darjeeling says the increase in the exports from his district is attributable to "the naturally increasing demand created by the cheap price."

10. *Food-grains.*—The total quantity of food-grains registered during the past year is compared below with the figures of the preceding two years:—

Though the total quantity imported from Nepal during the past year was much the same as in the preceding year, the decrease being merely 3,346 maunds, the details of the traffic show marked fluctuations, namely, an increase of 1,38,471 maunds under paddy, and 35,398 maunds under miscellaneous spring crops, while rice exhibits a large decrease of 1,02,718 maunds, and miscellaneous rain crops of 73,854 maunds.

The fluctuations are very marked under Champaran, Darbhanga, Bhagalpur, and Purnea, the causes of which are explained in the local reports as follows:—

Champaran.—"The decrease is owing to the good harvest during the year in the plains, and to the prices having in consequence considerably fallen during the year under report than in the preceding year, when famine and higher prices stimulated imports from that country."

Darbhanga.—"The trade of the previous year having been abnormally stimulated by the famine conditions prevailing here, a falling off in importations as the district returned to its normal condition was to be expected."

Bhagalpur.—"As a new bazar has been established at Hanuman Nagar cutcherry this year, where all these articles are purchased, their import has therefore fallen in comparison with that of the last year."

Purnea.—"The increase in imports is due to the withdrawal of the restriction on their own export of rice and paddy imposed by the Nepalese Government in the previous year during famine."

11. *Skins of sheep, goats, and other small animals.*—Under this head the large import into British territory registered in 1896-97, namely, 85,151 was not reached during the past two years, and the figures for 1898-99 were even below those for 1897-98 by 24,657. As usual, the largest number (12,659) was registered at Bairagnia in the Muzaffarpur district. The imports into Champaran declined from 23,755 in 1897-98 to only 13,766 in 1898-99.

12. *Salt.*—The increase in the exports noticed in the previous year's report received a check during 1898-99, although still slightly above the trade of 1896-97. The total quantity which passed through the Ghorasan station, in the Champaran district, during 1898-99 amounted to only 25,480 maunds, compared with 76,276 maunds in 1897-98. The Collector attributes this decrease partly to the temporary stoppage of traffic owing to the heavy floods in September 1898 and partly to some salt having been imported into Nepal from Bhutan during the year.

13. *Oilseeds.*—Last year there was a great recovery over the marked depression during 1897-98 in the trade in linseed, the total increase amounting to 1,36,253 maunds as compared with 1897-98, and to 55,160 maunds as compared with 1896-97. Transactions in mustard seed also showed great activity, there being an increase of 29,110 maunds and 87,006 maunds on the figures for the two previous years respectively. The improvement in both cases was due to a larger outturn in Nepal and to a greater demand in the Calcutta market.

14. *Sugar.*—This trade, which is confined to exports, showed a great recovery over that of the previous years. In the case of the Champaran district the increase is said to have been due to a larger outturn in that district during the year.

15. *Tobacco.*—None of the tobacco imported went to the places from which that product was exported.

16. *Silver.*—There were very large decreases last year both in imports and exports of silver, the falling off under the former head being Rs. 6,58,661 and Rs. 32,89,281 as compared with the two previous years respectively, and under the latter head Rs. 30,09,323 and Rs. 1,21,992. The import of 25 lakhs by the Nepal Darbar explains the magnitude of the trade last year.

Imposts levied by the Nepalese authorities.

17. In the Bhagalpur and Jalpaiguri districts no imposts were levied by the Nepalese authorities on traders entering or leaving Nepal during 1898-99. In the Muzaffarpur district, where no duties were levied during the two previous years, a tax was imposed during the year under report on articles exported to Nepal *viâ* Bela only. In the Purnea district duties were levied last year on a great many articles, and in the Kishanganj subdivision of that district the rate of imposts on articles exported exceeded those on articles imported. No noticeable change was made during the year in the rates of duty levied in the Champaran and Darbhanga districts.

18. In Appendix III will be found particulars of the more important articles, showing the amounts which passed through the principal stations.

SECTION III.—TRADE WITH TIBET AND SIKKIM.

Trade between Bengal and Tibet and Sikkim.

19. The traffic between Bengal and Sikkim continued to be registered during the past year at the four stations of Pedang, Ranjit, Laba, and Singla in the Darjeeling district. All these stations were kept open throughout the year.

Trade with Tibet.

20. The total value of the past year's traffic with Tibet is compared below with that of the preceding two years:—

	Trade with Tibet.		
	1896-97.	1897-98. (9 months.)	1898-99.
	Rs.	Rs.	Rs.
Imports into British territory ...	5,89,181	4,98,125	11,21,019
Exports from ditto ...	3,11,194	1,88,280	10,17,685
Total ...	9,00,375	6,86,405	21,38,704

There can, however, be no doubt that the very large apparent increase both in the import and export trade in the year under report as compared with 1896-97 is mainly due to the greater accuracy of the registration now that the stations have been altered. The increase in the returns is greatest under the heads of raw wool, musk, yak tails, and silver. Raw wool alone formed 63·6 per cent. of the total imports, while the figures under silver rose from Rs. 7,596 in 1896-97 to Rs. 2,26,000 in the year under report, but no explanation of the cause of the large increase under these heads has been given. The increase under musk was 56·4 per cent. as compared with 1896-97, and was due to larger speculation by the Chinese; the increase under yak tails was 6·8 per cent., and is attributed to a better demand in Calcutta. The rise in the export trade is ascribed to larger transactions in almost every article shown in the list below; and at the same time large consignments of metals, other than brass, copper and iron, precious stones and pearls unset, and Chinese and Japanese ware (including lacquered ware and excluding earthenware and porcelain) were for the first time registered during the past year. This is a curious and interesting development of the trade, for it seems an indication that the Chinese and Japanese merchants of the sea-ports find their communications with Thibet to be simpler and easier by the Yatung route than by the old trade roads through China. The largest item in the export trade is European cotton piece-goods, the value of which rose from Rs. 42,455 in 1896-97 to Rs. 2,52,179 in 1898-99; the other items in order of importance are silver (Rs. 1,56,323 against Rs. 1,13,800 in 1896-97), wool, manufactured (Rs. 1,17,011 against Rs. 26,974 in 1896-97), miscellaneous articles of merchandise, manufactured (Rs. 74,868 against Rs. 21,278 in 1896-97), and silk, manufactured (Rs. 64,999 against Rs. 660 in 1896-97).

21. The following statement shows the principal commodities imported from, and exported to, Tibet during the past three years:—

22. The following statement shows the articles of trade that passed through Tibet to and from China during the year 1896-97, registered at Buxa on the borders of the Jalpaiguri district. No such trade was registered at that station during 1897-98 and 1898-99, as already stated in paragraph 5 of this report:—

23. The result of the past year's trade with Sikkim is compared below with those of the two previous years:—

Trade with Sikkim.

	Trade with Sikkim.		
	1896-97.	1897-98.	1898-99.
	Rs.	Rs.	Rs.

Exports from ditto ...	4,17,902	3,64,963	4,22,976
Total ...	11,73,808	8,59,002	9,91,618

Though the total trade with Sikkim showed a recovery of 15·4 per cent. as compared with 1897-98, the figures were still 15·5 per cent. below those of 1896-97. The most important fluctuations in the imports from Sikkim in comparison with 1897-98 are a decrease of Rs. 45,977 under timber and of Rs. 26,159 under rain crops, against increases under living animals, other than horses, ponies, mules, cattle, sheep and goats (Rs. 38,949), ghi (Rs. 29,430), gram and pulses (Rs. 16,077), provisions, other than fish and ghi (Rs. 14,249), and under sheep and goats (Rs. 13,833). In the export trade there were increases under various articles as compared with the preceding year, the most noticeable among them being rice (Rs. 21,772), Indian cotton twist and yarn (Rs. 16,021), European cotton piece-goods (Rs. 11,749), cattle (Rs. 9,940), and salt (Rs. 8,036), while gold to the value of Rs. 2,000 was sent to Sikkim, none having been sent in the two previous years.

24. The subjoined abstracts show the chief articles of merchandise imported from, and exported to, Sikkim during the past three years:—

SECTION VI—TRADE WITH BHUTAN.

25. The trade of Bengal with Bhutan continued, as in previous years, to be registered at Buxa, Hantupara, and Ambari in the Jalpaiguri district, and at Pedang and Laba in the Darjeeling district. All these stations were kept open throughout the year, with the exception of Hantupara and Ambari, which were closed for seven months from April to October on account of the rains. The great bulk of the trade, both import and export, is registered at Buxa. The following statement gives the total value of the trade registered during the past three years:—

	Imports from Bhutan.	Exports to Bhutan.	Total.
	Rs.	Rs.	Rs.
1896-97	1,19,713	1,44,471	2,64,184
1897-98	1,08,194	1,37,460	2,45,654
1898-99	1,05,756	1,47,056	2,52,812

There has been little or no change in the total traffic registered during the past three years. The demand for all the principal articles, both under imports and exports, was steady, with the exception of fresh fruits and vegetables, the value of the imports of which fell from Rs. 18,178 in 1897-98 to Rs. 10,745

in 1898-99, and rice, the exports of which aggregated Rs. 23,979,in value against Rs. 16,710 in 1897-98.

26. The principal articles imported from Bhutan during the past year are compared below with the figures for the two previous years:—

Imports from Bhutan.

Import of untaxed foreign salt from trans-Himalayan sources.

28. The following comparative statement shows the total quantity of untaxed foreign salt imported into British territory from trans-Himalayan sources during the past three years:—

	1896-97.	1897-98.	1898-99.
	Mds. s.	Mds. s.	Mds. s.

Jalpaiguri	16 8	16 12	15 32
Total ...	156 8	163 12	204 32

Out of the total quantity that passed through the Darjeeling district in the year under review, 160 maunds came from Walunchin in Nepal *viâ* Sukiapukri and 29 maunds from Tibet *viâ* Guntok. The quantity that was registered in the Jalpaiguri district remained practically uniform during the past three years. No untaxed foreign salt was imported into British territory through any other frontier district.
